

The Profile of Companies

# JACLAS EXPO 2023

**Oct.** | 6 ( Fri. ) 9:00 - 17:30  
7 ( Sat. ) 9:00 - 17:30  
8 ( Sun. ) 9:00 - 14:00

**Venue** **Pacifico Yokohama** Exhibition Hall B, C, D

**Organized by** Japanese Association of Clinical Laboratory System

## A&T Corporation

Yokohama Plaza Bldg. 2-6 Kinko-cho, Kanagawa-ku, Yokohama, Kanagawa 221-0056, Japan  
<https://www.aandt.co.jp/eng/index/>  
+81-45-440-5813 +81-45-440-5821

### 【About Company】

Under our mission to contribute to the quality improvement and cost reduction in medical care, A&T has been developing, manufacturing, distributing and providing customer support for products in the fields of CAEL (Chemicals, Analyzers, Computers, Lab-Logistics) that are essential to clinical laboratory operation since May of 1978.

A line-up of products which will facilitate comprehensive solutions for clinical laboratories will be presented.

### 【Main Exhibit】

Laboratory Information System : CLINILAN Series  
Laboratory Automation System : CLINILOG Series  
Glucose Analyzer : GA0911α

## Abbott Japan LLC

3-5-27, Mita, Minato-ku, Tokyo 108-6305 Japan  
<https://www.abbott.co.jp/>  
+81-3-4555-1000 +81-3-3457-6721

### 【About Company】

Life to the fullest is a statement that describes - for our customers, our communities, our shareholders and all of our stakeholders - what we believe in and what we value, and what we strive to deliver in our day-to-day work. Abbott Laboratories, headquartered in Chicago, Illinois, U.S.A., is a global healthcare company providing comprehensive line of products and services of diagnostics, pharmaceuticals and nutrition to customers all over the world. Abbott Japan will continue to contribute health from infancy to the golden years.

### 【Main Exhibit】

Alinity ci-series  
Alinity i  
Alinity h-series  
Alinity PRO  
AlinIQ AMS  
AlinIQ BIS  
DSS  
Indexor system  
i-STAT1 System

## Alfresa Pharma Corporation

2-2-9 Kokumachi, Chuo-ku, Osaka 540-8575 Japan  
<https://www.alfresa-pharma.co.jp/english/>  
+81-6-6941-0368 +81-6-6947-1549

### 【About Company】

Alfresa Pharma's management philosophy is "actively taking on the challenge of the new 'Unmet Medical Needs' of the times and contributing to people's health and spiritual satisfaction in the broad areas of prevention, diagnosis, and treatment."

In our corporate activities, we place the highest priority on human life and health, and we are committed to creating new value for the Alfresa Group as a whole through collaboration with Group companies, conducting trustworthy business activities with thorough compliance, creating an open corporate culture and an environment where employees can have pride and purpose in life, and realizing a sustainable society.

### 【Main Exhibit】

Discrete Clinical Chemistry Analyzer AA01  
Discrete Clinical Chemistry Analyzer NS-Prime®  
Rapid Tests

## ARKRAY Marketing, Inc.

Taiga Building, 5F, 1-20-20 Yotsuya, Shinjuku-ku, Tokyo 160-0004 Japan  
<http://www.arkray.co.jp/>  
+81-50-5527-7701 +81-3-3358-8536

### 【About Company】

ARKRAY, Inc. is a manufacturer of clinical testing devices and in vitro diagnostic reagents. From development, manufacturing and distribution to the after-sales servicing of instruments, our company covers all aspects of business and, whilst specializing in diabetes testing devices, we also develop and manufacture urine testing devices, POC-related devices and test data management systems. Furthermore, we are also effectively using our base technologies to engage in the development of new products and services within the fields of genetic testing, veterinary care and functional food products, which serve as new areas of business. As a result of our expansion, we now support the field of clinical testing on a global scale with ARKRAY products and services being used currently in over 80 countries. We look forward to meeting you at our booth.

### 【Main Exhibit】

Fully Automated Urine Analyzer AUTION MAX AX-4061  
Urine Sediment Analyzer AUTION EYE AI-4510  
Laboratory data management system MEQNET MINILAB  
Automatic Glycohemoglobin Analyzer ADAMS A1c HA-8190V  
Automatic Glycohemoglobin Analyzer/Automatic Glucose Analyzer ADAMS HYBRID AH-8290  
Automatic Glycohemoglobin Analyzer The Lab 001

## Abbott Diagnostics Medical Co., Ltd.

7F SHINJUKU NS Bldg., 2-4-1 Nishi-Shinjuku, Shinjuku-ku, Tokyo 163-0807 Japan  
<https://www.globalpointofcare.abbott/ja/index.html>  
+81-3-5326-7300 +81-3-5326-7177

### 【About Company】

Abbott is the global leader in point-of-care (POC) diagnostics with the broadest portfolio of best-in-class rapid tests and services across all healthcare settings: the lab, the clinic, etc. Abbott's offering of industry-leading near patient tests and services is unmatched across key health and therapeutic areas, including: infectious disease, cardiometabolic & toxicology.

## ADTEC CO.,LTD.

1770-1 UEDA, USA-CITY, OITA 879-0453, JAPAN.  
<http://www.adtec-inc.co.jp>  
+81-978-58-3348 +81-978-37-3360

### 【About Company】

ADTEC Co., Ltd. develops, manufactures and sells in-vitro diagnostics for humans and animals. We are developing an immunochromatographic kit that can be used in clinical settings. As a new challenge, we sell POCT in the dental field. We provide high-quality products to support clinical testing sites. We look forward to seeing you at the exhibition booth.

### 【Main Exhibit】

N-benzoyl-DL-arginyl peptidase measurement reagent "ADCHECK"  
SARS coronavirus antigen kit "Adtest SARS-CoV-2 NEO"  
Influenza Virus Kit SARS Coronavirus Antigen Kit  
"Adtest SARS-CoV-2/Flu"  
Influenza virus kit "Adtest@Flu"  
Adenovirus kit "Adenotest AD"

## ALLIED VISION TECHNOLOGIES ASIA PTE.LTD.

Taschenweg 2a, 07646, Stadtroda, Germany  
<https://www.alliedvision.com/jp>  
81-(0)80-7852-0887

### 【About Company】

For more than 30 years, Allied Vision has been helping people to reach their imaging goals. By focusing on what counts for each customer, Allied Vision finds solutions for every application, a practice which has made Allied Vision one of the leading camera manufacturers worldwide in the machine vision market. Allied Vision hold an ISO 13485 certification for the development and production of cameras for medical devices.

### 【Main Exhibit】

Our Alvim and Goldeye SWIR cameras are ideal for medical applications such as dental imaging, lab equipment, Ophthalmology and surgical microscopy.

## ASAHI ELECTRO CHEMICAL CO.,LTD

4-3-18, Kamiji, Higashinari-ku, Osaka, 537-0003 Japan  
<http://www.smile-asahi.co.jp/english.html>  
06-6976-1372 06-6976-8940

### 【About Company】

Establishment November, 1950  
A capital of ¥75,000,000  
Number of employees 160 people  
The business contents/Resin formation processing • Coat and silk print • Assembly processing • Electric denzai attachment making and selling  
Official/Managing director Naohiro Hara • Managing director Morio Hara  
Headquarters • Branch office/Osaka (Headquarters) /Nagoya • Mie Aoyama • Tokyo  
Correspondent bank/Tokyo-Mitsubishi UFJ Bank • Osaka city credit union • Nizuho Bank

### 【Main Exhibit】

The original urine collecting equipment (harunnkitto • harunnkitto-mini)

## ASAHI KASEI CORPORATION

Hibiya Mitsui Tower, 1-1-2, Yurakucho, Chiyodaku, Tokyo 100-0006 Japan  
<https://www.asahi-kasei.co.jp/fibers/en/cnb/>  
 +81-3-6699-3806

### 【About Company】

Asahi Kasei Corp. develops fiber products, chemicals, and electronic related materials based on its core technology of chemistry, and globally pursues growth opportunities in the areas where we can leverage our technological advantages. In its holding company function, Asahi Kasei Corp. focuses on strategic planning and analysis, administration of resources, oversight of management execution, and development of new businesses which extend beyond the scope of any single field of business.

### 【Main Exhibit】

- NanoAct™ (Label Innovation for Lateral Flow ImmunoAssay)
- Microline™ (Pad Innovation for Lateral Flow ImmunoAssay)

## Atleta Co.,Ltd

1-2-5-403, Miyahara, Yodogawa-ku, Osaka-shi, Osaka, 532-0003 Japan  
<http://www.atleta.biz>  
 06-6151-5207 06-6151-5208

### 【About Company】

We've developed the perfect new style urine collector which has enjoyed the reputation here in the difficult market Japan. Clean, Easy collection even for pregnant woman, Easy carry, Easy handling also for the examiner. Easy to collect midstream urine, too. We also introduce the easy feces sampling sheet used in a toilet.

### 【Main Exhibit】

- URINE COLLECTOR 『Pee pole 4』 new product
- URINE COLLECTOR 『Pee pole II』
- URINE COLLECTOR 『URO CATCH II』
- FECEs SAMPLING SHEET
- J'sGUARD cleaner

## Bioer Life Science Japan Co., Ltd.

BMA#210, 1-5-5 Minatojima-minamimachi, Chuo-ku, Kobe, Hyogo 650-0047, Japan  
<http://www.bioer.com.cn/en/>  
 +81-78-335-7475

### 【About Company】

Our company was established as a Japanese subsidiary of Hangzhou Bioer Technology Co., Ltd. (BIOER), which develops, products, sells and services life science equipment and reagents. Headquarters products have been sold to more than 100 countries and regions around the world, including the United States, Germany, Canada, Finland, Japan, South Korea, Southeast Asia, South America and the Middle East. As a global supplier of PCR products, we have been at the forefront of the market for many years in the production of genetic testing equipment. As its Japanese subsidiary, we will utilize Japan's high-quality research capabilities to research and develop made in Japan measuring instruments, diagnostic agents, reagents, etc., and manufacture and sell them.

### 【Main Exhibit】

- Instrument items:
  - Real-Time PCR / Thermal Cycler/
  - Automated Nucleic Acid Extraction Systems.
- Reagent items:
  - DNA/RNA Purification Kit / Saliva Collection Kit/
  - SARS-COV-2 Nucleic Acid Detection Kit/
  - HPV Detection Kit / CT・NG・UU Detection Kit/
  - Group B Streptococcus Nucleic Acid Detection Kit/
  - Taq DNA Polymerase raw material reagent.
- Consumables items:
  - Pipet tip / PCR 8-strip tube / PCR Plate/
  - Cryogenic vial / Tip comb / Centrifuge tube.

## Bio-Rad Laboratories K.K.

2-2-24, Higashi-Shinagawa, Shinagawa-ku, Tokyo 140-0002 Japan  
<https://www.bio-rad.com/>  
 +81-3-6361-7070 +81-3-5463-8481

### 【About Company】

Bio-Rad is a global leader in developing, manufacturing, and marketing a broad range of innovative products for the life science research and clinical diagnostic markets. With a focus on quality and customer service for over 65 years, our products advance the discovery process and improve healthcare. Our customers include university and research institutions, hospitals, public health and commercial laboratories, biotechnology, pharmaceutical, as well as applied laboratories that include food safety and environmental quality.

### 【Main Exhibit】

- IH-1000 / IH-500 - fully-automated, walk-away system for ID-Cards
- Swing, Saxo, Banjo - semi-automated systems for ID-Cards
- IH-Central - software products such as Bio-Rad Blood Transfusion System, IH-Web, BRiCare
- A variety of reagents for immunohematology
- Quality Control products and data management tools
- BioPlex 2200 System - a fully-automated, random access, multiplex testing platform
- Genius Reader for HIV-1/2 confirmation assay
- QX200 Droplet Digital PCR (ddPCR) IVD system
- CFX Opus Dx Realtime PCR System

## Asia Labtech Japan Co.,Ltd

1-27-14 Morino Machida city Tokyo, 194-0022 Japan  
<https://www.asiakizai.co.jp/>  
 042-723-4670 042-728-0163

### 【About Company】

Asia Labtech Japan Co.,Ltd is the exclusive company dealing with variety of plastic labware. We always look for what laboratory need, and that's exactly what we provide. We welcome to hear the idea you are keeping in mind, because that will have us the chance to make a new product.

### 【Main Exhibit】

- tube, transfer pipette, sample cup, collecting container, pathological cassette, formallin container, other plastic disposables

## Beckman Coulter K.K.

TOC Ariake, 3-5-7, Ariake, Koto-ku, Tokyo 135-0063 Japan  
[www.beckmancoulter.co.jp](http://www.beckmancoulter.co.jp)  
 +81-3-6745-4704

### 【About Company】

Beckman Coulter develops, manufactures and markets products that simplify, automate and innovate complex biomedical testing. Our diagnostic systems are found in hospitals and other critical care settings around the world and produce information used by physicians to diagnose disease, make treatment decisions and monitor patients. Scientists use our life science research instruments to study complex biological problems including causes of disease and potential new therapies or drugs.

### 【Main Exhibit】

- Diagnostic systems
  - Hematology
  - Chemistry
  - Immunoassay
  - Microbiology
  - Molecular Diagnostics
  - Clinical Flow Cytometer
  - Laboratory Information Systems
  - Automation

## bioMérieux Japan Ltd.

Akasaka Tameike Tower 2F, 2-17-7 Akasaka, Minato-ku, Tokyo 107-0052 JAPAN  
[www.biomerieux-diagnostics.com](http://www.biomerieux-diagnostics.com)  
 +81-3-6731-9000

### 【About Company】

Over the past 60 years, we have developed a group of reliable products that contribute to the eradication of AMR and the proper use of antimicrobials on a global scale. In recent years, we have proposed a Syndromic Approach using comprehensive PCR testing that can detect multiple viruses and bacteria at once in a short time, in addition to microbiological testing equipment and reagents.

We look forward to meeting visitors at our booth under the theme of "Pioneer in Infectious Disease Testing - Pursuit of Innovative and Rapid Results".

### 【Main Exhibit】

- BACT/ALERT VIRTUO
- VITEK 2
- VITEK MS PRIME
- MYLA
- BioFire® FilmArray® Torch System
- BioFire® SpotFire® System

## BIOTEC CO.,LTD.

FURUSAWA BLDG. 2-29-4 YUSHIMA, BUNKYO-KU TOKYO 113-0034 Japan  
<https://www.biotec.co.jp/en.html>  
 81338166931 81338184554

### 【About Company】

Pipetting system manufacturer

### 【Main Exhibit】

- Pipetting system
- Microplate Washer

## biotechrabbit GmbH

DXL Building 9F Nishishinbashi 1-13-1, Minato-ku, Tokyo 105-0003, JAPAN  
<https://www.biotechrabbit.com>  
+81-3-5579-9275

### 【About Company】

biotechrabbit is determined to offer the best products and services to those who lead the way in research. The valued relationships with our partners and customers drive us to exceed current limitations with flexibility, innovation and highly customized solutions to match their specific requirements. Covering the whole workflow from enzyme production, ReadyMix development and lyophilization, biotechrabbit is the partner of choice for diagnostics and life sciences. Most biotechrabbit products are also available in bulk or as custom formulations. In close collaboration with our customers, we steadily develop new enzymes, reagents and antibodies. All biotechrabbit products are manufactured in Germany according to ISO 13485 and ISO 9001 standards.

### 【Main Exhibit】

- \* Proteins, Enzymes, Molecular Reagents and Kits
- \* Ready Master Mixes and Full Diagnostic Kits
- \* Lyophilized and Lyo-Ready Enzymes and Reagents
- \* Lyophilization Service
- \* OEM, Contract Manufacturing and Private Labeling
- \* Enzyme Development, Enhancement and Large Scale Manufacturing
- \* Custom Monoclonal Antibody Development and Manufacturing up to 1 kg
- \* Molecular and Immuno-assay Development and Kit Production
- \* Cell-Free Protein Synthesis, Rapid Translation System - RTS
- \* mRNA Technology
- \* Thermal and Isothermal Amplification

## CellaVision Japan K.K.

9F Sotetsu KS Bldg. 1-11-5, Kitasaiwai, Nishi-ku, Yokohama-shi, Kanagawa 220-0004 Japan  
<https://www.cellavision.com>  
+81-45-287-0638 +81-45-287-0801

### 【About Company】

CellaVision Japan is the subsidiary of CellaVision AB (Sweden) CellaVision develops and markets products for the health care sector, enabling fast and firm blood cell analysis and quality assurance of morphology diagnosis. The company has cutting-edge expertise within sophisticated digital image analysis, artificial intelligence and automated microscopy. For laboratories, this means increased efficiency, a simplification of the procedures and confirmed proficiency. The product line includes systems for automatic blood cell differentials and software for differential proficiency testing and education. The products are sold to hospital laboratories and independent commercial laboratories. Today CellaVision is represented in Europe, North America and to some extent in Asia.

### 【Main Exhibit】

CellaVision DM9600  
CellaVision DM1200  
CellaVision DC-1  
RAL STAINER  
RAL StainBox  
RAL SmearBox

## Chiome Bioscience Inc.

Sumitomo-Fudosan Nishi-shinjuku bldg. No. 6, 3-12-1, Honmachi, Shibuya-ku, Tokyo 151-0071 Japan  
<https://www.chiome.co.jp/?id=en>  
+81-3-6383-3561

### 【About Company】

Chiome Bioscience (TSE : 4583) was established in 2005 to achieve the practical use of the innovative ADLib® technology invented at RIKEN, which generates monoclonal antibodies (mAbs) utilizing avian immune cell.

Chiome is currently engaged in "Drug discovery support business", which offers contract services such as antibody discovery and affinity maturation on top of "Antibody Drug Discovery and Development". The ADLib® system, our proprietary mAbs generation technology, has competitive advantages and good track records to generate mAbs, e.g., ELISA results can be reported in as early as 3 weeks to our clients, much faster than other providers, and affinity maturation, if needed, can be applied by leveraging our own technologies and know-how.

We believe that our services can provide significant value to your projects as a cost-effective solution.

### 【Main Exhibit】

Latest technology introduction, Antibody generation and affinity maturation contract service, Recombinant protein preparation contract service

## CITIZEN FINEDEVICE CO.,LTD.

4107-5 Miyota Miyota-machi Kitasaku-gun Nagano 389-0295 Japan  
<https://cfd.citizen.co.jp/microdevice/>  
+81-(267)-32-1111 +81-(267)-32-7429

### 【About Company】

We have successfully introduced that the medical field with high-precision microfabrication and functional membrane technology cultivated through watch production technology. We also perform contract processing of high-precision Si mold substrates (resin molding or glass molding), microchannel chips, microplates, and medical analysis / inspection plates that apply MEMS. MEMS, which makes full use of semiconductor microfabrication technology to form ultra-compact, high-precision, high-performance three-dimensional structures, is attracting attention from a wide range of fields as a future technology. We can handle everything from design / simulation to trial production in manufacturing using MEMS.

### 【Main Exhibit】

- The fine fixture for medical
- The high-precision silicon mold for analysis chip
- The anchor plate for analysis
- The micro flow path chip for analysis
- The blood analysis plate

## Canon Medical Systems Corporation

70-1, Yanagi-cho, Saiwai-ku, Kawasaki-shi, Kanagawa 212-0015 Japan  
<https://jp.medical.canon/>  
+81-287-26-5320 +81-287-26-5321

### 【About Company】

Aims to maximize the quality, safety, and efficiency of medical care, supporting clinical practice with reliable quality and cutting-edge technology. Our advanced applications, supported by highly reliable technology, open the door to the next stage of medical care.

### < Scope of business >

Development, manufacture, sale and technical services for medical equipment (including diagnostic X-ray systems, medical X-ray CT systems, magnetic resonance imaging systems, diagnostic ultrasound systems, radiation therapy systems, diagnostic nuclear medicine systems, medical sample testing equipment, and information systems for medical equipment)

### 【Main Exhibit】

Clinical Chemistry Automated Analyzers  
TBA-FR Series (TBA-FX8/TBA-1500FR/TBA-120FR/Accute RX)  
TBA-nx360 Others

## Certest Biotec, S.L.

Pol. Industrial Río Gállego II · Calle J, Nº1, San Mateo de Gállego, Zaragoza, Spain  
[www.certest.es](http://www.certest.es)  
+34-976-520-354

### 【About Company】

Highly specialized and customer-oriented, Certest Biotec consists of four divisions, including Raw Materials, Immunodiagnostics (Rapid Tests, Turbidimetry, and CLIA), Molecular Biology under the VIASURE brand, and Pharma. Certest Biotec specializes in the diagnosis of infectious diseases through its lateral flow tests and RT-PCR, as well as the quantification of tumor markers through its turbidimetry reagents. The excellence of our tests is supported by antigens, antibodies and molecular enzymes manufactured by our Raw Materials division, which are also available to third parties. With over twenty years of experience in protein expression and purification, as well as the development and production of monoclonal antibodies, we provide the best support for IVD development projects to our products and customers. Additionally, the expertise of our highly qualified personnel, currently numbering over 300 employees, is at the disposal of our customers, offering development and manufacturing services for the production of their own materials.

### 【Main Exhibit】

Certest solutions are focused on 4 main areas:  
Certest Raw Materials provides high quality solutions for developing and manufacturing your IVD assays.  
Certest Immunodiagnostic: Rapid Test, Turbidimetry and CLIA.  
VIASURE: Molecular diagnostic solution.  
Certest Pharma: Technology to obtain better therapeutic products based on RNA, Delivery and Vaccines.

## Chroma Technology Japan

8F Yokohama Onocho Building 4-57 Onocho Naka-ku Yokohama 231-0015 Japan  
<https://www.chroma.com/>  
+81-45-285-1583

### 【About Company】

Chroma Technology is a specialized manufacturer of optical filters headquartered in Vermont, USA. We offer filters that can be used for a variety of purposes using the ultra-precision sputtering method. Since its establishment in 1991, it has been used by many universities, research institutes, and companies.

### 【Main Exhibit】

optical filter

## Copan Japan

KIBC 6F 659, minatojima minamichou 5-5-2, chuou-ku, Kobe city, Japan  
<http://www.copangroup.com/ja/>  
+81-78-599-9460 +81-78-599-9461

### 【About Company】

Copan Japan Co., Ltd., a Japanese subsidiary of the head office Copan Italia, Established in March 2018.

Our main product, FLOQSwab, is a test kit for influenza and coronavirus. Mostly used, FLOQSwab combined with transport container for liquid medium. It focuses on expanding the availability of specimen collection, storage and transportation systems.

In addition, it is possible to automate many inspection processes by combining it with a microbiological test sample pretreatment system called WASP.

### 【Main Exhibit】

- WASP (specimen pretreatment system for microbial testing)
- FLOQ Swab
- eSwab (collection of samples for aerobic bacteria, anaerobic bacteria, viruses, chlamydia, etc. Storage and transportation system)
- FecalSwab (stool sample collection, storage and transportation system)
- UTM (virus, chlamydia, mycoplasma, ureaplasma sample collection) and storage and transportation system)
- eNAT (specimen collection, storage and transportation system for genetic testing)

## Corefront Corporation

Sotobori Sky Bldg. 4F, 2-11, Ichigaya honmura-cho, Shinjuku-ku, Tokyo 162-0845 Japan  
<https://www.corefront.com/en.html>  
 +81-3-5579-8710 +81-3-5579-8711

### [About Company]

Corefront is engaged in the import and sales of a wide range of equipment, materials, reagents, and other products in various fields with "medical" as the keyword.

We handle latex particles used in various immunoassays. Additionally, we serve as the exclusive distributor for Rapid Shape, a German company, and offer sales of 3D printers in Japan. We also provide biocompatible 3D printer resins suitable for non-implantable in the body medical devices.

With our extensive product lineup and specialized knowledge, we aim to contribute to the improvement of people's quality of life.

### [Main Exhibit]

[Materials for Various Immunoassays]

Merck Millipore latex particle products

Merck Millipore membrane products

micromod Partikeltechnologie latex particle products

[Light Molding DLP System]

Rapid Shape 3D printers

[General-purpose, Impact-resistant, High-heat-resistant, Elastomer Resin]

Henkel resins for 3D printer

## DENKA Co., Ltd.

Nihonbashi Mitsui Tower, 2-1-1, Nihonbashi-muromachi, Chuo-ku, Tokyo 103-8338 Japan  
<https://www.denka.co.jp/>  
 +81-3-6214-3235 +81-3-6214-3244

### [About Company]

Denka in addition to influenza vaccines, diagnostic reagents, and macromolecular hyaluronate preparations, the Life Innovation Division aims to further expand the field through the provision of products and services that contribute to global health promotion.

### [Main Exhibit]

- Reagent for general-purpose automatic analyzer
- POCT test reagents / medical devices
- Multiplexing detection system for molecular assay and immunoassay

## DS Medical Co.,Ltd.

Osawa Bldg 3-6-9 Hongo Bunkyo-ku, Tokyo, 113-0033 Japan  
<https://www.ds-medical.jp/>  
 +81-3-6801-6933 +81-3-6801-6944

### [About Company]

We develop and supply the platelet aggregation analyzers for examining hemostasis and thrombogenicity, and import and sell the erythrocyte sedimentation rate analyzers to check inflammatory reactions and the blood coagulation analyzers to check hemostasis. In order for our customers to continue using our instruments with reassurance, we have prepared a support menu to prevent sudden breakdowns as well as to further improve our instruments.

### [Main Exhibit]

Platelet Aggregation Analyzer; Hematracer Series

Erythrocyte Sedimentation Rate Analyzer; CUBE Series

Blood Coagulation Analyzer; KC Series

Platelet Aggregation Reagents; MCM Series

## EIKEN CHEMICAL CO.,LTD.

4-19-9 Taito, Taito-ku, Tokyo, 110-8408 Japan  
<https://www.eiken.co.jp/en/>  
 +81-3-5846-3305(Main switchboard) +81-3-5846-3476

### [About Company]

Founded : February 20, 1939

Business : Manufacturing and sales of clinical diagnostics and equipments

Major Offices : Headquarters, 4-19-9 Taito, Taito-ku, Tokyo 110-8408 Japan

Sales Office ( Japan ), Sapporo, Sendai, Tokyo, Yokohama, Nagoya, Kyoto, Osaka,

Hiroshima, Takamatsu, Fukuoka

Europe Branch, Burgemeester Haspelslaan 25, 1181 NB Amstelveen, The Netherlands

### [Main Exhibit]

Fecal occult blood test : Fully automated fecal occult blood analyzer (OC-SENSOR

PLEDIA, OC-SENSOR Cores)

Urinalysis test : Fully automated urine analyzer ( US-3500, US-2300, US-1200)

Molecular genetics ( LAMP ) : Realtime Turbidimeter ( EXIA)

Antimicrobial Susceptibility Testing ( DPS192ix, IA40 MIC-i)

## Excel-Creates, Inc.

5F Sakaisuji Best Bldg. 1-16-13, Minamisenba, Chuo-ku, Osaka 542-0081 Japan  
<https://www.excel-creates.jp/>

### [About Company]

Manufacture and sale of packaged software for medical institutions

Integrated data management system [FORZ series]

Centralized management of examination data is realized by integrating the

department system, and efficiency of the medical department is achieved by linking

with electronic medical records.

I will try to make it. It is a product that can be used in clinics, hospitals, and

medical examination facilities.

### [Main Exhibit]

### 【About Company】

Our company name ForDx means For Diagnostics.  
ForDx's mission is to contribute to IVD product development and manufacturing as a specialized trading company.

We have provided a dispensing, lamination, cutting, drying, and assembly that meets rapid diagnostic test product needs as a BioDot's exclusive distributor in Japan.

We, ForDx can provide a total solution for IVD business as a supplier and an adviser. We are working toward a trustworthy company to support R&D and manufacturing of IVD products.

Please contact us if you are interested in conducting IVD business in Japan.

<https://healthcare.solutions-us.fujifilm.com/in-vitro-diagnostics>  
+81-465-85-4709 +81-465-85-2078

### 【About Company】

FUJIFILM has been providing in vitro diagnostic reagents and system worldwide. Its legacy product is the FUJI DRI-CHEM, a clinical chemistry analyzer. With its compact design and easy operation, this product is ideal in clinics and small hospitals and is very useful during disasters. FUJIFILM also has a product line up for the rapid diagnosis of infectious diseases. In this COVID-19 pandemic, a COVID-19 antigen test was developed and launched to help contain the spread of this disease. FUJIFILM aims to continue developing in vitro diagnostics products to contribute to improvement of health care.

## GramEye Co., Ltd.

Terminals Ibaraki 513, Shinchujyocho 1-30, Ibaraki City, Osaka, 567-0872, JAPAN  
<https://grameye.com/>  
 +81-80-1986-2269

### 【About Company】

Our mission is to "update infectious disease treatment and solve the global problem of drug-resistant bacteria", and our vision is to "update smear tests such as Gram staining using AI and Robotics, "Achieve proper use antibacterial drugs".  
 Gram staining is the most frequently performed microbial test in the world. In addition, it is very useful for selecting antibacterial drugs because it is possible to perform the test rapidly and inexpensively. However, it requires a lot of human resources in the process from staining to microscopy. And since it requires sufficient experience to become proficient, the results are not standardized and the delay in reporting results has not been fully utilized in the selection of antimicrobial agents.  
 We are working on product development to solve these issues.

### 【Main Exhibit】

Gram staining with automation and AI technology

## Greiner Bio-One Co., Ltd.

[www.immucor.com](http://www.immucor.com)  
+81-3-6386-8963 +81-3-5777-4526

### 【About Company】

Immucor is a leading provider of transfusion and transplantation diagnostic products worldwide. We strive to create a world where anyone, anywhere in need of blood or transplantation gets the right blood or transplant that is safe, accessible and affordable.

Each year, more than 4.5 million people in the U.S. alone need a blood transfusion and approximately 118 million units of blood are collected globally per the World Health Organization.  
According to the Global Observatory on Donation and Transplantation, there were about 136,976 solid organ transplants in 2020 worldwide.  
With today's dual focus on improving health outcomes and lowering healthcare costs, preventing negative reactions through better-matched donations is the ultimate goal in transfusion and transplantation medicine.

With the right match, we can transform a life together.

We will exhibit pumps used for analysis and inspection devices/instruments.

## JAPAN MEDIPOINT CO., LTD.

JINBUIL SUMIKAWA 4F-B 1-40 SUMIKAWA-1 MINAMIKU SAPPORO JAPAN  
<http://www.jmp-inc.jp/>  
 +81-11-299-6711 +81-11-299-6712

### 【About Company】

Mainly selling clinical laboratory equipment, consumables, cleaning agents, sanitizers, and deodorizers to medical facilities and companies in Japan. Establishment of a sales network with about 60 distributors across Japan. Collaborated with leaf Co., Ltd. and Nishimura Medical Instruments Co., Ltd. to launch swab-related products and health support services as a new business and expand the scope of business.

### 【Main Exhibit】

Swab-related products (Flock swabs, sponge swabs, etc.), culture media for transport (inactivated/UTM), saliva collection kits, infection prevention products (sterilization/deodorant, hand washing detergent), AI-based health support services (Help-U), clinical laboratory equipment in general, consumables (ECG recording paper, labels and other paper products, etc.), cleaning agents (cleaning agents for medical and physical chemistry)

## JOKOH Co.,Ltd.

〒213-8588 731-1, Unane, Takatsu-ku, Kawasaki, Kanagawa Pref.  
<https://jokoh.com/>  
 81-44-811-9211 81-44-811-9249

### 【About Company】

JOKOH Co.,Ltd. is a worldwide manufacturer of clinical laboratory and histology products. From the time of establishment 74 years ago, our ultimate goal has been one: to contribute to the development of science technology. We would like to continue seeking the best way to achieve the goal with our products, both in market of Japan and overseas.

### 【Main Exhibit】

- ESR Analyzer (Smart Rate series) [Smart Rate 10/20/40]
- Electrolyte Analyzer [Model: EX-D, EX-Ds, IoNEX]
- Ultrasonic Rapid Tissue Processor (Histra series) [Model: Histra-QS, Histra-DC]
- Tumor test kit for HER-2/neu Gene Amplification by FISH method and also by CISH method

### 【About Company】

Our headquarter KNF Neuberger GmbH is located in Freiburg Germany established in 1946. We are manufacturing diaphragm pumps for vacuum, compressor and liquid transportation. We have been getting good reputation about pump performance and reliability from a lot of companies worldwide. Our pumps are mainly customized pumps to meet the customer requirements, have been developed with our original system for offering customized pumps without additional tool fee. Our wealth is our know-how and experiences worldwide. And our value is the customization based on them.

### 【Main Exhibit】

○New product: Gentle flow pump : FP70, FP150, FP400  
○New product : Liquid pump with deviation of flow rate: FL10, FF12, FF20  
○New product : Liquid pump against super high pressure head: NF2.35  
○Dosing pump for replacing from syringe pump (20 μL~80 μL / stroke): FMM20, FMM80  
○Several Liquid pumps for transferring (0.05~11L/min) Small size, High head pressure, Chemical resistance, DC brushless motor  
○Vacuum pump/Compressor (0.3~15L/min, <0.7MPa g): Micro pump NMP/NMS series  
○Piston pump (vacuum/compressor) (3.3~78L/min): NPK03, NPK09, NPK25

<https://www.leicabiosystems.com/>  
+81-3-6758-5690

### 【About Company】

Leica Biosystems is a cancer diagnostics company and a global leader in workflow solutions. Only Leica Biosystems offers the most comprehensive portfolio that spans the entire workflow from biopsy to diagnosis.

With unique expertise, we are dedicated to driving innovations that connect people across radiology, pathology, surgery and oncology.

Our experts are committed to delivering Improved Quality, Integrated Solutions, and Optimized Efficiencies leading to breakthrough advances in diagnostic confidence.

Our mission of "Advancing Cancer Diagnostics, Improving Lives" is at the heart of our corporate culture. Leica Biosystems is headquartered in Germany and operates in over 100 countries.

## LION POWER Co.,Ltd.

Tsu 5, Tsukizu, Komatsu, Ishikawa, JAPAN  
[https://www.lionpower.co.jp/company/index\\_e.html](https://www.lionpower.co.jp/company/index_e.html)  
 +81-761-44-5411 +81-761-44-8080

### 【About Company】

We are already manufacturing and selling blood collection tube transfer equipment and desktop centrifugal smear equipment. The blood collection tube transfer device has been used at the National University of the Ryukyus Hospital, has been operating stably for a long period of time, and has received high praise from clinical laboratories. Desktop centrifugal smear equipment is steadily increasing sales in Japan, including famous hospitals nationwide such as the University of Tokyo Hospital, Institute of Medical Science, and Osaka University Hospital. It is characterized by being devised to prevent infection. Microscopic examination of blood is a highly reliable examination method, and there is a strong need for this product that can stably (evenly) prepare blood smears. The automatic staining device is also highly evaluated in the medical field, such as stable staining in blood staining.

### 【Main Exhibit】

Blood Cell Smear "Spinner LT1000"  
 Automatic Cell Stainer "Mini Stain LU1000"  
 Automatic inversion mixing device for blood collection tubes

## LSI Medience Corporation

2-3, shibaura 1-chome, Minato-ku, Tokyo 105-0023 Japan  
<https://www.medience.co.jp>  
 +81-3-6400-2104

### 【About Company】

LSI Medience became a member of PHC Holdings Corporation on August 1, 2019. LSI Medience's respected track record in the development, manufacture, and sale of clinical diagnostic reagents and instruments is reinforced by its wealth of experience operating integrated clinical testing facilities. We offer comprehensive services and support, from clinical testing on behalf of medical institutions to the introduction of diagnostic systems. We also bring efficiency and optimization to testing operations.

" From supply of clinical diagnostic reagents and instruments to management support, LSI Medience responds to the diverse needs of medical institutions"

### 【Main Exhibit】

- ◆ STACIA™ CN10 : Automated Blood Coagulation Analyzer STACIA CN10
- ◆ STACIA™ : Automated Clinical Testing System STACIA
- ◆ PATHFAST™ : Compact chemiluminescent immunoanalyzer PATHFAST
- ◆ Diagnostic reagents for clinical chemistry and immunoturbidimetry
- ◆ POCT products (immunochromatographic rapid tests)

## M&S Instruments Inc.

### 【About Company】

Development, manufacturing, and sales of instruments incorporated with electronic sensors and image processing systems, Medical products and DNA related systems, and LED manufacturing related systems.

### 【Main Exhibit】

Fully automated PCR testing equipment, Immunofluorescence analyzer, HbA1c measuring device, COVID-19 antigen test kit, Various immunoassay test kits, Various PCR test kits, and others

## MEDICAL & BIOLOGICAL LABORATORIES CO., LTD.

SUMITOMO FUDOSAN SHIBADAIMON NICHOME BLDG. 2-11-8 Shibadaimon, Minato-ku, Tokyo, 105-0012 Japan  
<https://www.mblbio.com/e/>  
 +81-3-6684-6860 +81-3-6854-3615

### 【About Company】

We are determined to contribute to human health and medical advancement through our ongoing development of innovative diagnostic technologies.

Products & Services

1. In Vitro Diagnostic Reagents

We provide high-quality clinical diagnostics reagents for autoimmune diseases and genetic testing, targeted for clinical laboratories and hospitals.

2. Customized Companion Diagnostics

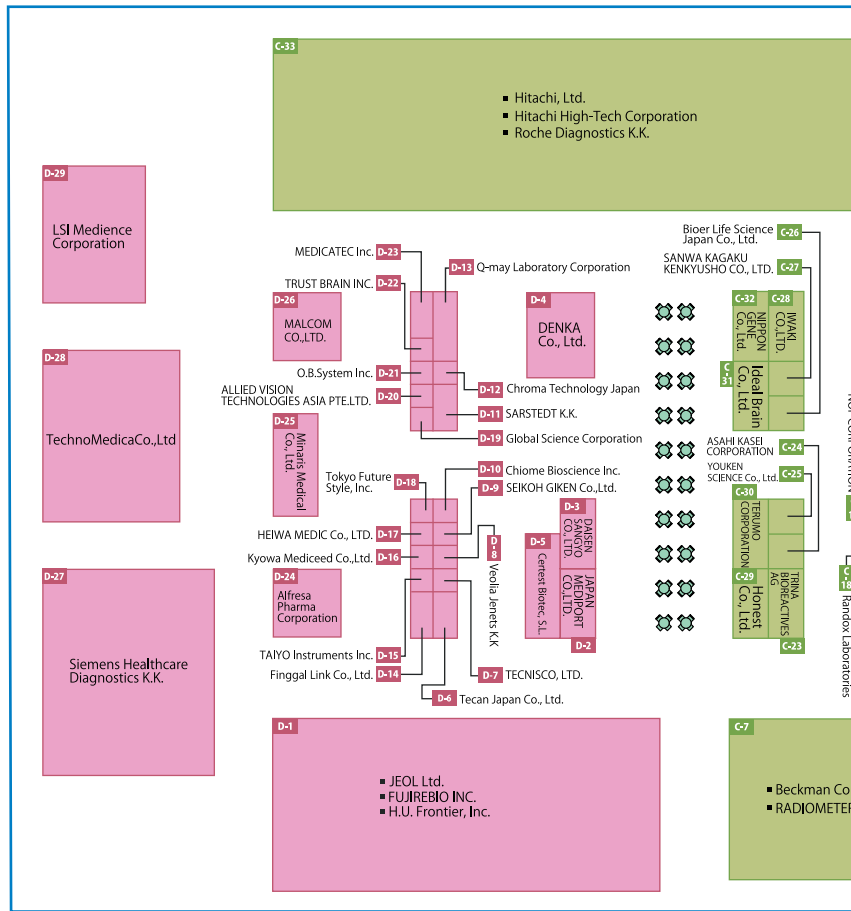

To support drug development, MBL provides contract services for development of companion diagnostics.

3. Research Reagents

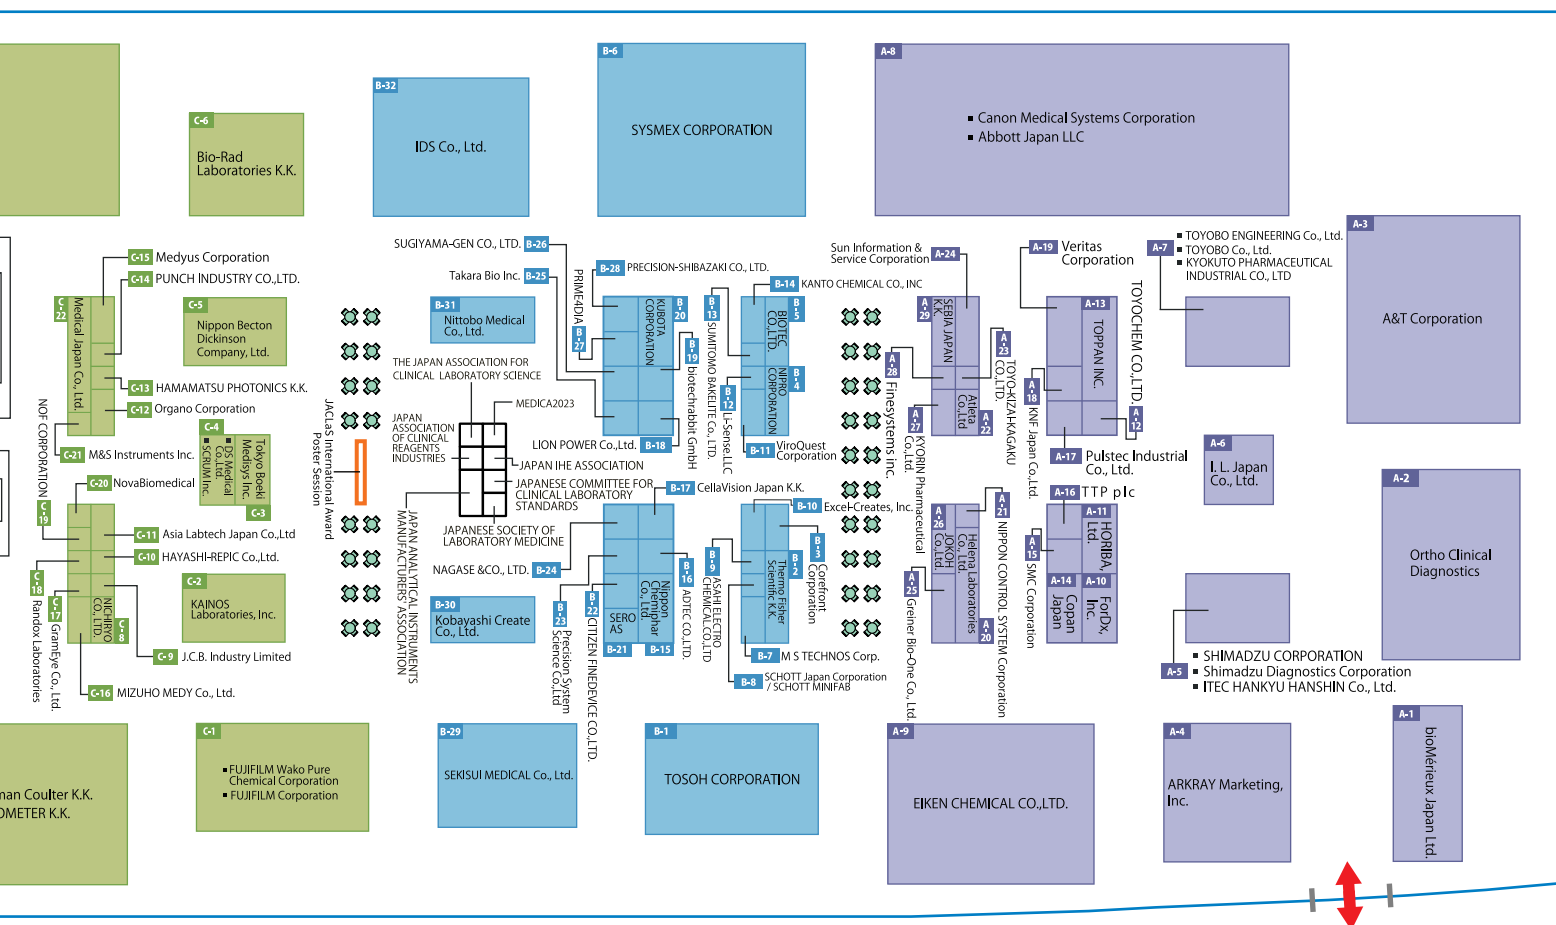

We support life science research with a wide variety of products such as antibodies, proteins, blocking agents, particles.

<https://www.medyus.co.jp/>  
+81-76-255-1827 +81-76-255-1847

### 【About Company】

As a system development maker in the medical industry, we provide consistent services from planning to development and installation support.  
From the beginning, we developed a low-cost, easy-to-install clinical laboratory drug management system that supports the "reagent management ledger".  
We are also good at customizing the system to support cloud environment and to meet the needs of companies and facilities. Flexible response is possible from university hospitals to small hospitals and examination centers. At the same time, we have also developed a sales management system for reagent wholesalers to handle complex sales purchasing and inventory management.

### 【About Company】

It was in 1975 that the enzymatic assay was introduced as an innovative technique into the world of laboratory testing that supports people's health.

In comparison to a chemical assay as the major technique in those days, the enzymatic assay fundamentally improved the efficiency and precision of testing, having a substantial impact on the industry of laboratory testing.

Since then, enzymatic assays have been applied to a broad range of fields, including clinical biochemistry and immunology, thereby contributing to improvement in healthcare services.

In 1981, our company spun off from the former Kyowa Hakko Kogyo Co., Ltd., which devised this innovative technique. Since 2021, we have pursued further leaps and development as an independent company by the name of Minaris Medical.

<https://www.nihonkohden.com/>  
 +81(3) 5996-8036 +81(3) 5996-8100

### 【About Company】

Nihon Kohden's primary business is development, manufacturing, sales, maintenance and consultation of medical electronic equipment and related systems and products.

Nihon Kohden's mission is to utilize its leading edge technology and products to support medical treatment in all clinical areas from emergency response to testing, diagnosis, treatment and rehabilitation. In addition to clinical treatment, Nihon Kohden products play an active role outside the hospital, such as in health improvement and home medical care and nursing as well as basic medical research.

Under the philosophy that curing disease is something that transcends politics and national borders, we export our medical equipment and devices to more than 120 countries and regions around the world to fulfill local medical needs.

### 【About Company】

BD is a global medical technology company that is advancing the world of health by improving medical discovery, diagnostics and the delivery of care. BD leads in patient and healthcare worker safety and the technologies that enable medical research and clinical laboratories. The company provides innovative solutions that help advance medical research and genomics, enhance the diagnosis of infectious disease and cancer, improve medication management, promote infection prevention, and equip surgical and interventional procedures.

In 1897, Maxwell Becton and Fairleigh Dickinson founded Becton, Dickinson and Company with a vision to improve outcomes for patients. With more than a century of experience and our global reach, BD leads in patient and healthcare worker safety and the technologies that enable medical research and clinical laboratories.

### 【About Company】

Nippon Gene has established in 1982 as the biotechnology venture company in Japan. We have obtained ISO13485 approval and governmental registration of manufacturing not only human IVD but also animal IVD. We also provide contract manufacturing services from antibody development to Point of Care Test (POCT) devices.

In addition, since our establishment, we have developed and manufactured various research tools, enzymes, nucleic acid extraction kits, DNA/RNA amplification kits, Buffers under ISO9001, for instance. We have been developing and manufacturing the products customer needed based on experiences as a reagent manufacturer. Nippon Gene commits to contribute to health of human, animals, plants, and earth (environment) by producing useful products with confidence and reliability.

### 【Main Exhibit】

- POCT (Lateral flow device, Flow through device)
- ELISA
- SARS-CoV-2 nucleic Acid detection kit (Whole In One SARS-CoV-2 direct detection kit)
- CMS (POCT, Nucleic acid hybridization chromatography, Test paper, ELISA, etc.)
- Key parts CMS (Antibodies, IVD grade oligos, Enzymes for research, Nucleic Acid purification, etc.)

## Nittobo Medical Co., Ltd.

Kojimachi-odori Building 7F, 2-4-1, Kojimachi, Chiyoda-ku, Tokyo, 102-0083, Japan  
<https://nittobo-nmd.co.jp/english/>  
 +81-3-4582-5430 +81-3-3238-4591

### 【About Company】

As one of the most famous IVD reagent manufacturers in Japan, NITTOBO MEDICAL manufactures and provides Japan-made diagnostic reagents that enable clinicians to make more effective and reliable decisions for better disease management and treatment.

NITTOBO MEDICAL is especially well-known in the market for its immunoturbidimetric reagents - including CRP, immunoglobulins, and urinary albumin, just to name a few - all of which run on automated analyzers commercialized by various providers. Together with the other Nittobo Group companies' capabilities to produce raw materials for the reagents, NITTOBO MEDICAL ensures its customers stably receive high quality products.

From diagnostic reagent kits to bulk reagents, quality controls to standard solutions, NITTOBO MEDICAL cultivates lasting relationships with the customers for improving world's health care.

<https://www.organo.co.jp/english/>  
+81-3-5635-5191 +81-3-3699-7220

### 【About Company】

Organo's management philosophy is to contribute to the development of Japanese industry by making full use of the water treatment know-how cultivated from the beginning.

In particular, the functional products business provides pure water equipment required for clinical tests and analysis. It is used supports people's health and medical care behind the scenes.

### 【Main Exhibit】

●Cabinet-Type Pure Water System: PURELITE PR-SG Series

Organo's long-selling products that pursue high water quality and ease of use. We have a large selection of abundant optional products according to water quality and application

●Cabinet-Type Electrodeionization (EDI) High-Purity Water System: Super Designer SD-SG series

As the system is equipped with the latest EDI, which consistently maintains ion exchange capacity, ion exchange resin cartridges no longer need to be replaced.

●Desktop-Type Ultrapure Water System:  $\mu$  (myu) series

As an alternative to distillers and bottled water, it is recommended for small-volume users ( $\sim$ 10L/day).

Simple function, low initial and running cost. It contributes to your laboratory matched with easy maintenance and good usability.

<https://www.pulstec.co.jp/en/>  
+81-53-522-3611

### 【About Company】

Pulstec Industrial acquired the "Approvals for Manufacturing Medical Devices" in June of 2014, and ISO13485 certification in July of 2015. Pulstec has been developed our operational system, which is designing, pre-production, manufacturing, and maintenance for medical equipment. We are also working on compliance with overseas standards such as FDA.

In the exhibition, Pulstec will introduce our these activities. Also we will exhibit fluorescence detection unit (concept model) and fluorescence/light absorbing detection unit (concept model) which is applied our core technology, optical sensing technology.

### 【Main Exhibit】

• Fluorescence detection unit (concept model)

This unit is required for PCR or Laboratory test.

Fluorescence detection unit is integrated which is applied high sensitive PMT technology.

• Small fluorescence/light absorbing detection unit (concept model) This unit is versatile fluorescence/light absorbing detection unit, incorporating to apply for stimulated multiple and polyspecimen which is required for research of genetics and immunology. The unit is equipped with high sensitive fluorescence detection unit and temperature control stage according to test reagent. Compact, light weight and fast detection are realized. also speedy sample evaluation is possible

## PUNCH INDUSTRY CO.,LTD.

## Randox Laboratories

55 Diamond Road, Crumlin, BT29 4QY, Northern Ireland  
<https://www.randox.com/>  
 44 (0) 28 9442 2413

### 【About Company】

With 40 years of diagnostic expertise, Randox Laboratories has earned global recognition and revolutionised the industry. Our unwavering commitment to innovation allows us to streamline testing processes, reduce costs, and maintain exceptional performance standards.

Randox Reagents has developed an extensive range of over 115 routine and niche assays, catering to diverse applications in clinical chemistry analysis. Our reagents are meticulously designed and manufactured to ensure optimal performance, delivering consistently accurate results. With an availability of applications for third-party instruments, Randox Reagents provide flexibility and compatibility while keeping costs low.

Acusera quality controls is a vital component of our portfolio. These controls instil confidence in the reliability of our assays. Our wide selection of high-quality control materials undergoes rigorous testing to meet stringent standards. With Acusera, laboratories can effectively monitor and maintain the accuracy of their testing procedures.  
 Randox, Dedicated to improving health worldwide.

### 【Main Exhibit】

With 40+ years of diagnostic expertise, Randox Laboratories has established a global reputation by reshaping the industry through unwavering dedication to innovation. This commitment has led to streamlined testing processes, cost reductions, and the maintenance of exceptional performance standards. At the core of our offerings, Randox Reagents provide a comprehensive range of over 115 diagnostic reagents, encompassing more than 100 disease markers.

### 【About Company】

Sebia has been a global leader in multiple myeloma testing for over 50 years and is your laboratory partner with unique technology and extensive experience. Through superior technology and high quality products, we contribute to the early detection, diagnosis, and treatment of disease, from screening to diagnosis and monitoring of myeloma and AL amyloidosis. Sebia's capillary electrophoresis provides laboratories and clinicians with highly sensitive, high-resolution results from advanced technology. Easy operation and automated maintenance features improve the operational efficiency of clinical laboratories. Sebia agarose gel electrophoresis ensures sharp, clear patterns and sensitive immunofixation with a unique sample application system. High sensitivity and high resolution results provide reliable test results and are appreciated by users around the world.

### 【About Company】

Having entered the business of manufacturing and selling SS agar in 1952, Shimadzu Diagnostics is now a leading company in clinical diagnostic agents for microbiological testing. We develop products that respond scrupulously and are faithful to the needs of testing sites.

### 【Main Exhibit】

Rapid Analyzer for Identification and Susceptibility Test RUISUS S4

## SHINO-TEST CORPORATION

3-7-9 Kanda-Surugadai, Chiyoda-ku, Tokyo 101-8410, JAPAN  
<https://www.shino-test.co.jp/en/>  
 +81-03-5280-3711

### 【About Company】

Shino-Test was established in 1951 as the world's first company to manufacture and commercially distribute clinical diagnostic kits. Our company has since responded to the numerous needs arising from medical settings. We have gained the trust of the medical community by strictly adhering to QMS (Quality Management System) - the core basis of manufacturing medical supplies. By conducting rigorous quality control, we have established ourselves as one of the leading companies in the field of biochemical laboratory testing. In addition, we are expanding our business to immunology and genetic testing. At Shino-Test, we will continue to manufacture clinical reagents to enable early diagnosis and aid therapy. We sincerely hope to contribute to society through clinical testing.

### 【About Company】

When our health is at risk, we rely on physicians to make the best possible decisions - from quick, early diagnoses to the most effective treatments and follow-ups. By constantly bringing breakthrough innovations to market, we help healthcare professionals to deliver high-quality care, leading to the best possible outcome for patients.

Our portfolio of is at the center of clinical decision-making and treatment pathways. Patient-centered innovation has been and always will be at the core of our company. We aspire to create better outcomes and experiences for patients no matter where they live or what they are facing.

We pioneer breakthroughs in healthcare. For everyone. Everywhere.

This is why we give our best every day, to improve the lives of patients and their families.

## Tecan Japan Co., Ltd.

Kawasaki Tech Center, 580-16 Horikawa-cho, Saiwai-ku, Kawasaki, Kanagawa 212-0013, Japan  
<http://www.tecan.co.jp>  
+81-44-556-7311 +81-44-556-7312

### 【About Company】

Tecan is a leading company in automated liquid dispensing in the life sciences industry. Especially in the field of liquid handling, we have world-class technology and have evolved that technology every day. The companies specializing in in-vitro diagnostics analyzers around the world incorporate our syringe pumps, pipetting modules, and robotic arms in their automated systems. On the other hand, we have been designing and manufacturing many in-vitro diagnostic systems at the request of famous manufacturers all over the world.

### 【Main Exhibit】

This time, we are going to show a highly durable and accurate piston pump, which has been increasing its track record in Japan, and a new product, an OEM robot arm that can immediately adjust the dispensing conditions in response to the environment as well as our syringe pumps etc. We will prepare to show the liquid dispensing under the conditions according to the request from visitors at the booth on the spot. We also accept consultations on OEM parts and analyzer contract design that can be followed up to product life cycle management.

Parts: OEM piston / syringe pump, pipette module, liquid passage switching valve, etc.

OEM contract: Contract design and manufacturing of in-vitro diagnostic instrument and scientific automatic analyzers

## TECNISCO, LTD.

<https://www.elgalabwater.com/>  
03-5765-1330 03-5447-7071

### 【About Company】

ELGA LabWater is the world's second-largest manufacturer of pure water and ultrapure water equipment for laboratories. The Veolia Group develops environmental businesses such as water supply business and water treatment business for business establishments around the world. Among them, ELGA LabWater, headquartered in the United Kingdom, mainly manufactures and sells pure water equipment for laboratories. We are developing PURELAB brand products for laboratories and MEDICA brand products for clinical laboratories. As a manufacturer of pure water equipment for laboratories, we were the first to introduce EDI technology and UV technology, and always provide the latest water treatment technology.

### 【Main Exhibit】

MEDICA B10X: Wastewater treatment unit for automatic analyzer  
Wastewater can be reliably treated simply by connecting it to an analyzer.  
● Sterilization ● pH adjustment  
● Reduction of BOD/COD/nitrogen oxides  
MEDICA: Reagent water system for Auto Analyzer  
• CLRW standard adaptation  
• Maintaining water quality by circulating tank water and irradiating UV  
• In an emergency, pure water can be supplied only with tap water pressure.  
• A lineup of EDI types that reduce running costs  
PURELAB Quest: ultrapure water equipment for laboratories  
• UV type is most suitable for high-sensitivity instrumental analysis such as HPLC and genetic testing.

### 【About Company】

The Sciforium® PL series is a synthetic polymer. it produces effects equal to or greater than those of BSA. For example, it is useful for blocking effect on membranes in immunochromatography and Western Blotting, blocking effect and sensitization effect by addition in buffer in ELISA test, reducing reagent loss and improving stabilization effect during PCR experiment.

We also offer functional adhesive tapes/films with heat resistance, low elution properties, compatibility with hard-to-bond materials, and optical filter functions that make use of our polymer/dye technology, the technology of a top adhesive manufacturer, as test diagnostic reagents/device peripheral materials.

### 【Main Exhibit】

☆Sciforium®(synthetic polymer with small lot-to-lot variation and stability)  
■PL1152: polymer for diagnostic reagents  
Function: Prevention of non-specific adsorption, sensitization of antigen/antibody reaction, protein stabilization, etc.  
■PL6000: Anti-clumping agent for biopharmaceuticals  
Function: Cell aggregation of cells during culture and prevention of wall adhesion  
■PL8000: Media supplement for biopharmaceuticals  
Function ex.:  
• Improve IgG production in CHO cell suspension culture system  
• Improve CYP3A4 activity in 3D culture system of hepatocytes  
☆Various functional materials for diagnostic reagents/equipment  
■Wavelength control film  
Function: Absorbs/transmits light in a specific wavelength range  
■Adhesive tape for test kits  
Function: low elution, hemolysis, heat resistance, adhesion of hard-to-bond materials

## TRINA BIOREACTIVES AG

Grabenstrasse 8, Naenikon 8606, Switzerland  
<http://www.trinabio.com/>  
+ (41) 449052010 + (41) 449052011

### 【About Company】

Swiss manufacturer for bulk reagents and intermediates for the global IVD industry. Processed serum, positive and negative human serum/plasma, Disease state materials, controls and calibrators as well as Clinical samples for R&D/QC, Antibodies and Antigens, Animal Sera. ISO 13485: 2016 certified.  
[takahito.tomizawa@trinabio.com](mailto:takahito.tomizawa@trinabio.com)

### 【Main Exhibit】

Disease state, bulk control material  
Plasma/Serum processed  
Serum pooled/single  
Source Plasma disease state, Donor Qualification  
OEM Calibrators & Controls  
Purified antigens  
Clinical Specimen

## TTP plc

TTP Campus, Cambridge Road, Melbourn, SG8 6HQ, UK  
[www.ttp.com](http://www.ttp.com)  
+44-1763-262626

### 【About Company】

At TTP, we bring together world-leading scientists and engineers to deliver cutting-edge diagnostics solutions today - and we have done so for over three decades. We have a proven track record of working at the forefront of technology, inventing disruptive diagnostic systems every day.

We integrate complex processes into easy-to-use and low-cost disposables. We offer clients complementary technologies that ensure they can deliver. We are unrivalled in speed of development, confidence of functionality and of regulatory manufacturability - and we can deliver at scale.

### 【Main Exhibit】

TTP provide workable solutions to the most challenging diagnostics problems: turning complex lab processes into simple-to-use diagnostics instruments and consumables.  
We will be showcasing some of our examples.

## Veritas Corporation

Sumitomo Hamamatsucho Bldg., 6th Floor, 1-18-16 Hamamatsucho, Minato-ku, Tokyo 105-0013 Japan  
<https://www.veritastk.co.jp/en/>  
+81-3-5776-0078 +81-3-5776-0076

### 【About Company】

Veritas Corporation, founded in 1972, is a Japanese distributor of products in the in vitro diagnostics, life sciences research and raw material reagent markets.

### 【Main Exhibit】

• Antibody & Antigen  
• Specimens (Healthy donors, Patient Samples)  
• Animal Serum Products, BSA  
• Human Serum Products

## ViroQuest Corporation

No.2-5, Awaji-machi 2-Chome, Chuo-ku, Osaka 541-0047 Japan  
<https://www.viroquest.co.jp>  
81-6-6152-9940 81-6-6152-9941

### 【About Company】

We are handling the products related Infectious diseases by virus and bacteria.

### 【Main Exhibit】

[ Infectious diseases - related ] Clinical specimen, PCR control, Riconbinant protein, Antibody

## YOUKEN SCIENCE Co., Ltd.

2F Shimada Bldg. 2-18-7, Iwamoto-cho, Chiyoda-ku, Tokyo 101-0032 Japan  
<http://youken-science.co.jp>  
+81-3-3851-5113 +81-3-3851-6165

### 【About Company】

Since the establishment of a business, I offer various disposable products made by plastic skillful with a physics and chemistry plane. Molding plant at the company's group has been consistently up to a molding from the mold making products that incorporate the opinions of the customer, to provide high quality products to satisfy our customers is possible. Because I produce it automatically in the molding environment for exclusive use of the physics and chemistry apparatus, and the molding factory molds it under the thorough quality control system, the management such as the traceability does not have any problem and can supply the highly precise product which is most suitable for the production such as expendable supplies for automatic share note devices.

### 【Main Exhibit】

Disposable chip (For Automatic Pipettor)  
Plastic test tube  
Sample cup  
Urethrate spitz  
Microplate  
Embedding cassette For pathology
