

The Profile of Companies

# JACLAS EXPO 2024

**Oct.** | 4 ( Fri. ) 9:00 - 17:00  
5 ( Sat. ) 9:00 - 17:00  
6 ( Sun. ) 9:00 - 14:00

**Venue** Pacifico Yokohama Exhibition Hall B, C, D

**Organized by** Japanese Association of Clinical Laboratory System

## A&T Corporation

Yokohama Plaza Bldg. 2-6 Kinko-cho, Kanagawa-ku, Yokohama, Kanagawa 221-0056, Japan  
<https://www.aandt.co.jp/eng/index/>  
+81-45-440-5813 +81-45-440-5821

### 【About Company】

Under our mission to contribute to the quality improvement and cost reduction in medical care, A&T has been developing, manufacturing, distributing and providing customer support for products in the fields of CAEL (Chemicals, Analyzers, Computers, Lab-Logistics) that are essential to clinical laboratory operation since May of 1978. A line-up of products which will facilitate comprehensive solutions for clinical laboratories will be presented.

### 【Main Exhibit】

Laboratory Information System : CLINILAN Series  
Laboratory Automation System : CLINILOG Series  
Glucose Analyzer : GA09IIα  
Electrolyte Analyzer : EA10M  
Coagulation Analyzer : CG02N

## Abbott Japan LLC

3-5-27, Mita, Minato-ku, Tokyo 108-6305 Japan  
<https://www.abbott.co.jp/>  
+81-3-4555-1000 +81-3-3457-6721

### 【About Company】

Life to the fullest is a statement that describes - for our customers, our communities, our shareholders and all of our stakeholders - what we believe in and what we value, and what we strive to deliver in our day-to-day work. Abbott Laboratories, headquartered in Chicago, Illinois, U.S.A., is a global healthcare company providing comprehensive line of products and services of diagnostics, pharmaceuticals and nutrition to customers all over the world. Abbott Japan will continue to contribute health from infancy to the golden years.

### 【Main Exhibit】

Alinity ci-series  
Alinity i  
Alinity h-series  
Alinity PRO  
Alinity AMS  
Alinity BIS  
DSS  
Indexor system  
i-STAT1 System

## ADTEC CO.,LTD.

1770-1 UEDA, USA-CITY, OITA 879-0453, JAPAN.  
<http://www.adtec-inc.co.jp>  
+81-978-41-1000 +81-978-37-3360

### 【About Company】

ADTEC Co., Ltd. develops, manufactures and sells in-vitro diagnostics for humans and animals. We are developing an immunochromatographic kit that can be used in clinical settings. As a new challenge, we sell POCT in the dental field. We provide high-quality products to support clinical testing sites. We look forward to seeing you at the exhibition booth.

### 【Main Exhibit】

N-benzoyl-DL-arginyl peptidase measurement reagent "ADCHECK"  
SARS coronavirus antigen kit "Adtest SARS-CoV-2 NEO"  
Influenza Virus Kit SARS Coronavirus Antigen Kit  
"Adtest SARS-CoV-2/Flu"  
Influenza virus kit "Adtest\*Flu"  
Adenovirus kit "Adenotest AD"

## Alfreda Pharma Corporation

2-2-9 Kokumachi, Chuo-ku, Osaka 540-8575 Japan  
<https://www.alfreda-pharma.co.jp/english/>  
+81-6-6941-0368 +81-6-6947-1549

### 【About Company】

Alfreda Pharma's management philosophy is "actively taking on the challenge of the new 'Unmet Medical Needs' of the times and contributing to people's health and spiritual satisfaction in the broad areas of prevention, diagnosis, and treatment."

In our corporate activities, we place the highest priority on human life and health, and we are committed to creating new value for the Alfreda Group as a whole through collaboration with Group companies, conducting trustworthy business activities with thorough compliance, creating an open corporate culture and an environment where employees can have pride and purpose in life, and realizing a sustainable society.

### 【Main Exhibit】

Discrete Clinical Chemistry Analyzer AA01  
Discrete Clinical Chemistry Analyzer NS-Prime\*  
Rapid Tests

## Abbott Diagnostics Medical Co., Ltd.

7F SHINJUKU NS Bldg., 2-4-1 Nishi-Shinjuku, Shinjuku-ku, Tokyo 163-0807 Japan  
<https://www.globalpointofcare.abbott/ja/index.html>  
+81-3-5326-7300 +81-3-5326-7177

### 【About Company】

Abbott is the global leader in point-of-care (POC) diagnostics with the broadest portfolio of best-in-class rapid tests and services across all healthcare settings: the lab, the clinic, etc. Abbott's offering of industry-leading near patient tests and services is unmatched across key health and therapeutic areas, including: infectious disease, cardiometabolic & toxicology.

### 【Main Exhibit】

Following products to be exhibited at Abbott Japan booth  
ID NOW™ Instrument  
ID NOW™ INFLUENZA A & B 2  
ID NOW™ STREP A 2  
ID NOW™ COVID-19 V2.0  
Panbio™ COVID-19/Flu A&B RAPID PANEL (NASOPHARYNGEAL)  
Panbio™ COVID-19 Antigen RAPID TEST DEVICE

## ACON Laboratories, Inc.

9440 Carroll Park Drive, San Diego, California, 92121, USA  
[www.aconlabs.com](http://www.aconlabs.com)  
1858-875-8000

### 【About Company】

ACON Laboratories makes Point-of-care medical diagnostic affordable to people worldwide. ACON provides rapid diagnostics and healthcare products based on the philosophy of high quality and affordability. Specializing in medical products for Diabetes Care, Clinical Chemistry including Urinalysis Reagent Strips, Urine Analyzer and Urine Controls.

## aetherAI Co., Ltd.

#103 Shinkiba2 Mitsui Linklabo, 1-17-8 Shinkiba, Koto-ku, Tokyo-to 136-0082 Japan  
<https://www.aetherai.com/>  
+886 2-2785-6892

### 【About Company】

aetherAI takes a two-pronged approach to develop solutions, using our expertise to contribute to the AI revolution. By elevating the standards of medical diagnosis and improving quality of care, we can realize the ultimate value of digital medical imaging.

### 【Main Exhibit】

aetherAI Hema-BM18 :  
Differential count of blood cells is the basis of diagnostic hematology, and in many instances the identification of cells in bone marrow smears is the diagnostic gold standard. However, the differential count and morphological assessment are still performed manually, a tedious, time-consuming procedure laden with high inter-operator variation. aetherAI Hema has been specifically developed to overcome this problem by automating the differential count procedure for bone marrow smears, which in due course will benefit all leukemia patients.

### aetherSlide :

aetherSlide is designed around pathologists' daily workflow. Workload and progress is easily monitored, with AI at your side to help prioritize work and focus on the most important tasks. In aetherSlide, AI is integrated into every aspect of pathology workflow where it can be helpful, from slide quality control, case triaging, cancer screening, to IHC quantification. Pre-trained AI models can be fine-tuned using new data and annotation.

## ARKRAY Marketing, Inc./ARKRAY Infinity, Inc.

Taiga Building, 5F, 1-20-20 Yotsuya, Shinjuku-ku, Tokyo 160-0004 Japan  
<http://www.arkray.co.jp/>  
+81-50-5527-7701 +81-3-3358-8536

### 【About Company】

ARKRAY, Inc. is a manufacturer of clinical testing devices and in vitro diagnostic reagents. From development, manufacturing and distribution to the after-sales servicing of instruments, our company covers all aspects of business and, whilst specializing in diabetes testing devices, we also develop and manufacture urine testing devices, POC-related devices and test data management systems. Furthermore, we are also effectively using our base technologies to engage in the development of new products and services within the fields of genetic testing, veterinary care and functional food products, which serve as new areas of business. As a result of our expansion, we now support the field of clinical testing on a global scale with ARKRAY products and services being used currently in over 80 countries. We look forward to meeting you at our booth.

### 【Main Exhibit】

Fully Automated Urine Analyzer AUTION MAX AX-4061  
Urine Sediment Analyzer AUTION EYE AI-4510  
Laboratory data management system MEQNET MINILAB  
Automatic Glycohemoglobin Analyzer ADAMS A1c HA-8190V  
Automatic Glycohemoglobin Analyzer/Automatic Glucose Analyzer ADAMS HYBRID AH-8290

## artience Co., Ltd.

2-1, Kyobashi 2-chome Chuo-ku, Tokyo 104-8379  
<https://www.artiencegroup.com/en/>  
 +81-3-3272-0242

### [About Company]

Based on the core technologies of pigments, resins, and dispersions that we have built up since our founding in 1896, we are exhibiting a range of bioscience products that are useful for diagnostic reagents/instrument peripheral materials, drug discovery research, and cell culture.

The Sciforium®PL 1000 series is a synthetic polymer that has excellent sensitizing effects and blocking properties in immune reactions, as well as protein stabilization, and is expected to suppress HAMA and RF interference.

The Sciforium®PL 6000 and 8000 series can be used as medium additives for hybridoma culture, with excellent anti-clumping effects and improved antibody production.

The Sciforium®FI7500 series is a near-infrared fluorescent probe that exhibits excellent fluorescence intensity and excellent photostability. It is ideal for long-term monitoring and measurement of cells and lipid biomolecules, in vivo imaging, and FACS analysis using a flow cytometer.

### [Main Exhibit]

- Polymers for diagnostic drugs, Sciforium® PL1000 series
- Medium additives for hybridoma culture, Sciforium® PL6000/8000 series
- Near-infrared fluorescent probe, Sciforium® FI7500 series
- Adhesive tapes for test kits

## Asia Labtech Japan Co.,Ltd

1-27-14 Morino Machida city Tokyo, 194-0022 Japan  
<https://www.asiakizai.co.jp/>  
 042-723-4670 042-728-0163

### [About Company]

Asia Labtech Japan Co.,Ltd is the exclusive company dealing with variety of plastic labware. We always look for what laboratory need, and that's exactly what we provide. We welcome to hear the idea you are keeping in mind, because that will have us the chance to make a new product.

### [Main Exhibit]

tube, transfer pipet, sample cup, collecting container, pathological cassette, formallin container, other plastic disposables

## ASAHI ELECTRO CHEMICAL.CO.,LTD

4-3-18, Kamiji, Higashinari-ku, Osaka, 537-0003 Japan  
<http://www.smile-asahi.co.jp/english.html>  
 +81 6-6976-1372 +81 6-6976-8940

### [About Company]

Asahi Denki Kasei Co., Ltd. is engaged in OEM business for plastic products.

As one of our own products, we manufacture and sell "Harun Kit," a urine collection kit that does not require a paper cup. Harn kit does not require paper cups and reduces waste. The container in which urine is collected can be tightly sealed with a screw structure. The container can be quickly opened by tipping it on its side for testing. It is also compatible with automatic urine screening machines.

### [Main Exhibit]

Our original urine collection device (Harn Kit, Harn Kit Mini, Harn Kit Set)

## Atleta Co.,Ltd

1-2-5-403, Miyahara, Yodogawa-ku, Osaka-shi, Osaka, 532-0003 Japan  
<http://www.atleta.biz>  
 06-6151-5207 06-6151-5208

### [About Company]

We've developed the perfect new style urine collector which has enjoyed the reputation here in the difficult market Japan. Clean, Easy collection even for pregnant woman, Easy carry, Easy handling also for the examiner. Easy to collect midstream urine, too. We also introduce the easy feces sampling sheet used in a toilet.

### [Main Exhibit]

URINE COLLECTOR [Pee pole 4]  
 URINE COLLECTOR [Pee pole II]  
 URINE COLLECTOR [URO CATCH II]  
 FECES SAMPLING SHEET [FLUSH SHEET]  
 SANITIZING WIPES [J'SGUARD CLEAPER]  
 FECES SAMPLING TOOL [MG KIT]

## BBI Solutions

Unit 2, Parkway, Pen-y-fan Industrial Estate, Crumlin, NP11 3EF, UK  
<https://www.bbisolutions.com/>  
 81-90-5205-4188

### [About Company]

BBI Solutions has been providing a wide range of products and services to the global diagnostics industry for over 30 years. Our core competencies include a comprehensive suite of reagents with custom development options, lateral flow development, and diagnostic manufacturing services. Leveraging our decades of experience in all stages of diagnostic development for the right solutions the first time.

### [Main Exhibit]

#### [Portfolio Overview]

- Provision of Diagnostic Reagents and Components (antigens, antibodies, gold colloids/conjugates, IVD enzymes)
- Complementary Reagents (cell culture products, enzymes, serum, plasma)
- Development of Diagnostic Reagents (monoclonal and polyclonal antibodies, antigen, enzyme) POCT
- Design, Development, and Manufacture of POCT (LF assay development/optimization, custom conjugation, LF test manufacture)

## Beckman Coulter K.K.

TOC Ariake West Tower, 3-5-7 Ariake, Koto-ku, Tokyo 135-0063 Japan  
[www.beckmancoulter.com](http://www.beckmancoulter.com)  
 +81-3-6745-4704

### [About Company]

A global leader in clinical diagnostics, Beckman Coulter Diagnostics has challenged convention to elevate the diagnostic laboratory's role in improving patient health for more than 80 years. Our mission is to Relentlessly Reimagine Healthcare, One Diagnosis at a Time - and we do this by applying the power of science, technology and the passion and creativity of our teams. Our diagnostic solutions are used in complex clinical testing, and are found in hospitals, reference laboratories and physician office settings around the globe. We exist to deliver smarter, faster diagnostic solutions that move the needle forward from what's now to what's next. We do this by accelerating care with an extensive clinical menu, scalable lab automation technologies, insightful clinical informatics, and optimize lab performance services.

### [Main Exhibit]

Diagnostic systems

- Immunoassay
- Chemistry
- Hematology
- Microbiology
- Molecular Diagnostics
- Clinical Flow Cytometer
- Clinical IT
- Automation

## BESTOWS

Matsubaradori, 5-1-21-1206, Hyogo-ku, Kobe, Hyogo 652-0881, JAPAN  
<https://www.bestows.biz/>  
 +90-6062-9775

### [About Company]

BESTOWS Co., Ltd. is a venture company spun out of Kobe University that strongly promotes the social implementation of the university's research results. We create advanced software, freeing people from monotonous work and contributing to the realization of a prosperous society.

### [Main Exhibit]

An automatic imaging stage for microscopes and an automatic digital image acquisition system. We will exhibit an automatic imaging stage that can be attached to existing microscopes and its applications.

## bioMérieux Japan Ltd.

Akasaka Tameike Tower 2F, 2-17-7 Akasaka, Minato-ku, Tokyo 107-0052 JAPAN  
<http://www.biomerieux.com/>  
 +81-3-6731-9000

### [About Company]

Over the past 60 years, we have developed a group of reliable products that contribute to the eradication of AMR and the proper use of antimicrobials on a global scale.

In recent years, we have proposed a Syndromic Approach using comprehensive PCR testing that can detect multiple viruses and bacteria at once in a short time, in addition to microbiological testing equipment and reagents.

We look forward to meeting visitors at our booth under the theme of "Automation x Digitalization -Creating the Next Generation of Microbiology Laboratories".

### [Main Exhibit]

BACT/ALERT VIRTUO, VITEK 2, VITEK MS PRIME, MAESTRIA, CLARION, BioFire® FilmArray® Torch System, BioFire® SpotFire® System

## Bio-Rad Laboratories K.K.

2-2-24, Higashi-Shinagawa, Shinagawa-ku, Tokyo 140-0002 Japan  
<https://www.bio-rad.com/>  
+81-3-6361-7070 +81-3-5463-8481

### 【About Company】

Bio-Rad is a global leader in developing, manufacturing, and marketing a broad range of innovative products for the life science research and clinical diagnostic markets. With a focus on quality and customer service for over 65 years, our products advance the discovery process and improve healthcare. Our customers include university and research institutions, hospitals, public health and commercial laboratories, biotechnology, pharmaceutical, as well as applied laboratories that include food safety and environmental quality.

### 【Main Exhibit】

IH-1000 / IH-500 - fully-automated, walk-away system for ID-Cards  
Swing, Saxo, Banjo - semi-automated systems for ID-Cards  
IH-Central - software products such as Bio-Rad Blood Transfusion System, IH-Web, BRiCare  
A variety of reagents for immunohematology  
Quality Control products and data management tools  
BioPlex 2200 System - a fully-automated, random access, multiplex testing platform  
Genius Reader for HIV-1/2 confirmation assay  
QX200 Droplet Digital PCR (ddPCR) IVD system  
CFX Opus Dx Realtime PCR System

## Canon Medical Systems Corporation

70-1, Yanagi-cho, Saiwai-ku, Kawasaki-shi, Kanagawa 212-0015 Japan  
<https://jp.medical.canon/>  
+81-287-26-5320 +81-287-26-5321

### 【About Company】

Aims to maximize the quality, safety, and efficiency of medical care, supporting clinical practice with reliable quality and cutting-edge technology. Our advanced applications, supported by highly reliable technology, open the door to the next stage of medical care.  
< Scope of business >  
Development, manufacture, sale and technical services for medical equipment (including diagnostic X-ray systems, medical X-ray CT systems, magnetic resonance imaging systems, diagnostic ultrasound systems, radiation therapy systems, diagnostic nuclear medicine systems, medical sample testing equipment, information systems for medical equipment, and Point of Care testing solutions)

### 【Main Exhibit】

Clinical Chemistry Automated Analyzers  
TBA-FR Series (TBA-FX8/TBA-1500FR/TBA-120FR/Accute RX)  
TBA-nx360 Others  
Point of Care testing solutions  
Rapiim Series

## Central Link Co.

3-11-21, Minamino, Hachioji-shi, Tokyo, Japan, 192-0916  
<https://centrallink.jp/>  
+81-042-699-1331

### 【About Company】

We import and sell biomaterials and research samples (human biological samples, antigens, antibodies, etc.) to domestic IVD manufacturers, pharmaceutical manufacturers, and other research institutions.  
We have a network with overseas manufacturers of biomaterials and do direct business with them, so we can provide the product information required by those in the research, manufacturing, purchasing, and quality control departments, including stable supplies, competitive prices, and research support.  
We provide reliable information and support quickly to improve the quality of "testing" and "diagnosis." And by increasing the value of "blood" and "knowledge," we hope to expand the possibilities of life science and make a significant contribution to society.

### 【Main Exhibit】

We have developed a service called Kentai Navi, which allows you to order biological samples online. We provide the product information required by those in charge of research, manufacturing, purchasing, and quality control, such as stable supplies of biomaterials and research samples, competitive prices, and research support.

## Chroma Technology Japan

8F Yokohama Onoecho Building 4-57 Onoecho Naka-ku Yokohama 231-0015 Japan  
<https://www.chroma.com/>  
+81-45-285-1583

### 【About Company】

Chroma Technology is a specialized manufacturer of optical filters headquartered in Vermont, USA. We offer filters that can be used for a variety of purposes using the ultra-precision sputtering method.  
Since its establishment in 1991, it has been used by many universities, research institutes, and companies.

### 【Main Exhibit】

optical filter

## BIOTEC CO.,LTD.

FURUSAWA BLDG. 2-29-4 YUSHIMA, BUNKYO-KU TOKYO 113-0034 Japan  
<https://www.biotech.co.jp/en.html>  
81338166931 81338184554

### 【About Company】

Pipetting system manufacturer

### 【Main Exhibit】

Pipetting system  
Microplate Washer

## CellaVision Japan K.K.

9F Sotetsu KS Bldg. 1-11-5, Kitasaiwai, Nishi-ku, Yokohama-shi, Kanagawa 220-0004 Japan  
<https://www.cellavision.com>  
+81-45-287-0638 +81-45-287-0801

### 【About Company】

CellaVision Japan is the subsidiary of CellaVision AB (Sweden) CellaVision develops and markets products for the health care sector, enabling fast and firm blood cell analysis and quality assurance of morphology diagnosis. The company has cutting-edge expertise within sophisticated digital image analysis, artificial intelligence and automated microscopy. For laboratories, this means increased efficiency, a simplification of the procedures and confirmed proficiency. The product line includes systems for automatic blood cell differentials and software for differential proficiency testing and education. The products are sold to hospital laboratories and independent commercial laboratories. Today CellaVision is represented in Europe, North America and to some extent in Asia.

### 【Main Exhibit】

CellaVision DM9600  
CellaVision DM1200  
CellaVision DC-1  
RAL STAINER  
RAL StainBox  
RAL SmearBox

## Chiome Bioscience Inc.

Sumitomo-Fudosan Nishi-shinjuku bldg. No. 6, 3-12-1, Honmachi, Shibuya-ku, Tokyo 151-0071 Japan  
<https://www.chiome.co.jp/?id=en>  
+81-3-6383-3561

### 【About Company】

Chiome Bioscience (TSE : 4583) was established in 2005 to achieve the practical use of the innovative ADLib® technology invented at RIKEN, which generates monoclonal antibodies (mAbs) utilizing avian immune cell.

Chiome is currently engaged in "Drug discovery support business", which offers contract services such as antibody discovery and affinity maturation on top of "Antibody Drug Discovery and Development". The ADLib® system, our proprietary mAbs generation technology, has competitive advantages and good track records to generate mAbs, e.g., ELISA results can be reported in as early as 3 weeks to our clients, much faster than other providers, and affinity maturation, if needed, can be applied by leveraging our own technologies and know-how.

We believe that our services can provide significant value to your projects as a cost-effective solution.

### 【Main Exhibit】

Latest technology introduction, Antibody generation and affinity maturation contract service, Recombinant protein preparation contract service

## CITIZEN FINEDEVICE CO.,LTD.

4107-5 Miyota Miyota-machi Kitasaku-gun Nagano 389-0295 Japan  
<https://cfd.citizen.co.jp/microdevice/>  
+81-(267)-32-1111

### 【About Company】

We have successfully introduced that the medical field with high-precision microfabrication and functional membrane technology cultivated through watch production technology. We also perform contract processing of high-precision Si mold substrates (resin molding or glass molding), microchannel chips, microplates, and medical analysis / inspection plates that apply MEMS. MEMS, which makes full use of semiconductor microfabrication technology to form ultra-compact, high-precision, high-performance three-dimensional structures, is attracting attention from a wide range of fields as a future technology.  
We can handle everything from design / simulation to trial production in manufacturing using MEMS.

### 【Main Exhibit】

- The fine fixture for medical
- The high-precision silicon mold for analysis chip
- The anchor plate for analysis
- The micro flow path chip for analysis
- The blood analysis plate

## Copan Japan K.K.

KIBC 6F 659, 5-5-2 Minatojima Minamimachi, Chuo-ku Kobe, Japan Zip650-0047  
<https://www.copangroup.com/about/>  
 +81-78-599-9460

### 【About Company】

Copan is dedicated to developing high-quality and cutting-edge sample collection products for infectious diseases, human genomics, environmental and forensic applications, along with automated workflow solutions.

Our ideas drove 40 years of progress in preanalytics, resulting in meaningful products tailored to fit any need. Among them, FLOQ technology revolutionized sample collection, while WASPLab® advanced hardware and A.I. modules leveraged automation and digitalization to redefine full lab automation. Copan's Workflow-Integrated System Environment can accompany your biological samples from the collection to impeccable diagnostics, unlocking your lab's real potential and improving treatment indication and patient care.

<https://www.copangroup.com/>

### 【Main Exhibit】

1. Automation system movies / product catalogue (WASPLab)
2. AI system movie (PhenoMATRIX)
3. FLOQ Swabs
4. eSwab
5. Fecal Swab
6. UTM
7. eNAT

## CORRENS CORPORATION

Roppongi 1-8-7, Minato-ku, Tokyo 106-0032, JAPAN  
<https://www.correns.co.jp/>  
 +81-3-5114-0711 +81-3-3589-3234

### 【About Company】

Correns Corporation is an industrial machinery trading company specializing in the import of industrial machinery and the export of semi-finished products and components.

Founded in 1948 in Tokyo by German entrepreneur Klaus Correns.

Our main business activities include the import of overseas products, the export of Japanese products, and the provision of technical services. As an agent for European manufacturers, we import a wide range of products, including metal forming and processing technology, plastic and rubber molding technology, medical product molding, filling and assembly automation equipment, and food processing machinery. In our export business, we handle OEM product exports, and in our technical services, we provide equipment maintenance, assembly work, and technical negotiations with manufacturers.

### 【Main Exhibit】

Rychiger AG (Switzerland)

- Fully automated manufacturing machines for various IVD (in vitro diagnostic) kits and reagents
- Fully and semi-automated precision filling and drug handling equipment for laboratories and R&D
- Handling and filling equipment for lyophilized products
- Filling and assembly equipment for auto-injectors

## DENKA Co., Ltd.

Nihonbashi Mitsui Tower, 2-1-1, Nihonbashi-muromachi, Chuo-ku, Tokyo 103-8338 Japan  
<https://www.denka.co.jp/>  
 +81-3-6214-3235 +81-3-6214-3244

### 【About Company】

In addition to influenza vaccines, diagnostic reagents, the Life Innovation Division aims to further expand the field through the provision of products and services that contribute to global health promotion.

### 【Main Exhibit】

- Reagent for general-purpose automatic analyzer
- POCT test reagents / medical devices
- Multiplexing detection system for molecular assay and immunoassay

## EIKEN CHEMICAL CO.,LTD.

4-19-9 Taito, Taito-ku, Tokyo, 110-8408 Japan  
<https://www.eiken.co.jp/en/>  
 +81-3-5846-3305(Main switchboard) +81-3-5846-3476

### 【About Company】

Founded : February 20, 1939  
 Business : Manufacturing and sales of clinical diagnostics and equipments  
 Major Offices : Headquarters, 4-19-9 Taito, Taito-ku, Tokyo 110-8408 Japan  
 Sales Office ( Japan), Sapporo, Sendai, Tokyo, Yokohama, Nagoya, Kyoto, Osaka, Hiroshima, Takamatsu, Fukuoka  
 Europe Branch, Burgemeester Haspelslaan 25, 1181 NB Amstelveen, The Netherlands

### 【Main Exhibit】

Fecal occult blood test : Fully automated fecal occult blood analyzer (OC-SENSOR PLEDIA, OC-SENSOR Ceres)  
 Urinalysis test : Fully automated urine analyzer ( US-3500, US-2300, US-1200)  
 Molecular genetics ( LAMP ) : Realtime Turbidimeter ( EXIA )  
 Antimicrobial Susceptibility Testing ( DPS192ix, IA40 MIC-i)

## COREFRONT CORPORATION

Sotobori skybldg.4F, 2-11, Ichigaya honmura-cho, Shinjuku, Tokyo  
[www.corefront.com](http://www.corefront.com)  
 +81-3-5579-8710

### 【About Company】

Established in 1999, we import and sell 3D printers and products for regenerative medicine and biotechnology.

We treat color and fluorescent microspheres and membrane for lateral flow kit. also show 3D printer for make lateral flow kit housing. We support the development of clinical diagnostic kits from various angles.

### 【Main Exhibit】

- Estapor Color latex particles for lateral flow kit
- Estapor fluorescent latex particles for lateral flow kit.
- Estapor membrane for lateral flow kit.
- 3D printer
- Resin for use 3D printer
- 3D printing contract modeling service

<https://fujifilm.com/ffwk/en>  
+81-6-6203-3741 +81-6-6203-2029

### 【About Company】

FUJIFILM Wako Pure Chemical Corporation, based on its philosophy of With commitment to the future of science, our company is dedicated to create the source of happiness for all people, will support the medical practice as an IVD (In vitro diagnostics) manufacturer that handles comprehensive reagents and devices in a wide variety of testing fields.

In addition to the clinical chemistry reagents which occupies the top share in Japan, a number of "World's first" technologies and/or products that were developed from the advanced technology of FUJIFILM Wako Pure Chemical Corporation, such as Accuraseed that can report the result of immunological tests in 10 minutes, and HCC tumor marker AFP-L3% that can specifically diagnose HCC by detecting the sugar chain mutation, and further, such as (1 → 3)-β-D-glucan assay reagents used for diagnosis of deep mycosis, are widely utilized in medical practice.

We will continue to contribute to the medical care that supports the patient's life and QOL, with the development of technologies that meet the needs of the testing fields and with the commitment to developing better products.

### 【Main Exhibit】

- Accuraseed: Automatic Chemiluminescent Enzyme-Immunoassay Analyzer  
- μ TASWako i50: Fully Automated Immunoanalyzer  
- LIMUSAVE MF-7500: Microbe-derived Component Analyzer

## GramEye Co., Ltd.

4F, Ekimae 3-7-1, Ibaraki City, Osaka, 567-0888, JAPAN  
<https://grameye.com/>  
 +81-80-9437-2026

### 【About Company】

Our mission is to "update infectious disease treatment and solve the global problem of drug-resistant bacteria", and our vision is to "update smear tests such as Gram staining using AI and Robotics, "Achieve proper use of antibacterial drugs".

Gram staining is the most frequently performed microbial test in the world. In addition, it is very useful for selecting antibacterial drugs because it is possible to perform the test rapidly and inexpensively. However, it requires a lot of human resources in the process from staining to microscopy. And since it requires sufficient experience to become proficient, the results are not standardized and the delay in reporting results has not been fully utilized in the selection of antimicrobial agents.

We are working on product development to solve these issues.

### 【Main Exhibit】

Gram staining with automation and AI technology

[www.immucor.com](http://www.immucor.com)  
 +81-3-6386-8963 +81-3-5777-4526

### 【About Company】

Immucor is a leading provider of transfusion and transplantation diagnostic products worldwide. We strive to create a world where anyone, anywhere in need of blood or transplantation gets the right blood or transplant that is safe, accessible and affordable.

Each year, more than 4.5 million people in the U.S. alone need a blood transfusion and approximately 118 million units of blood are collected globally per the World Health Organization.

According to the Global Observatory on Donation and Transplantation, there were about 136,976 solid organ transplants in 2020 worldwide.

With today's dual focus on improving health outcomes and lowering healthcare costs, preventing negative reactions through better-matched donations is the ultimate goal in transfusion and transplantation medicine.

With the right match, we can transform a life together.

### 【About Company】

Informa Markets is the world's leading B2B events organiser, producing more than 500 international B2B events, with over 5,000 colleagues working in 40 countries. We provide customers and partners around the globe with platforms in key regions and market verticals to engage, do business, create compelling experiences and make powerful connections.

Informa Markets Japan is the Japan branch of the global network, helping businesses to trade both domestically and internationally, providing markets access for international companies to enter into the Japanese market, as well as assisting Japanese companies to expand into overseas markets.

### 【Main Exhibit】

We are a UK-based exhibition organizing company, and we are excited to announce the hosting of the Japan Health International Exhibition in 2025, focusing on medical devices and healthcare. Japan Health will be the 13th international exhibition on medical devices and healthcare organized by our Healthcare Team, spanning 13 events in 10 countries annually. The upcoming event in 2025 will mark our 10th country for this series. Additionally, Japan Health is positioned as a related event of Expo 2025 Osaka-Kansai. It will be held at INTEX Osaka from June 25 to 27, 2025, in conjunction with the Health and Wellbeing Week, which will be held at the Expo site from June 20 to July 1, 2025.

The below is the details about Japan Health and Theme Week.

【Japan Health】 25-27 June 2025 at INTEX OSAKA <https://japanhealthonline.com/en/>

【About Theme Week】 20 June - 1 July 2025 at Expo

site <https://www.expo2025.or.jp/en/news/news-20231025-02/>

## IDS Co., Ltd.

8-14-30, Nagamine-higashi, Higashi-ku, Kumamoto 861-8038 Japan  
<https://www.idsma.com/en/profile/index.html>  
 +81-96-380-4225 +81-96-389-2077

### 【About Company】

IDS Co., Ltd. specializes in Laboratory Automation Systems (LAS) and enjoys a leading position in the global marketplace. Our Integrated Production System encompasses product development, machinery design, material manufacturing, part assembly, and comprehensive after-sales support. This approach ensures a consistent supply of high-quality products and allows us to tailor our automation systems to meet the specific needs of each customer, delivering user-friendly solutions in a timely manner.

### 【Main Exhibit】

- Sample Processor : IDS-Compact S1
- Sample Processor : IDS-CLAS X-1
- Front-end Sample Processor : IDS-CLAS 2800
- Front-end Sample Processor : IDS-CLAS 3600
- Fully Automated Urine Aliquoter : IDS-Hrs
- Clinical Laboratory Information System : LABOWARE

## ITEC HANKYU HANSHIN Co., Ltd.

1-1-31, Ebie, Fukushima-ku, Osaka Japan  
<https://itec.hankyu-hanshin.co.jp/>  
 +81-6-6456-5223 +81-6-6456-5252

### 【About Company】

A domain identity makes a medical system the start, are enterprises, such as outsourcing, and building related supervisor control and elevator sale of Internet providers, web work, data center services, etc., etc., and is developing it broadly.

Aiming at the company which can contribute to social development with the state-of-the-art technology, an always new thing is challenged and worthy IT solution is created in the future, and it strives in order to respond to a visitor's reliance.

### 【Main Exhibit】

Laboratory Information System : MELAS-i

Operation support system for ISO 15189 : MELAS-i Qmex

Information System for Infection Control Team : ICT Mate

The paperless system of a microbiological inspection : BCT Mate

## J.C.B. Industry Limited

7-3-13, Ginza, Chuo-ku, Tokyo 104-0061 Japan  
[https://www.nihon-menbow.co.jp/ehhtml/index\\_en.html](https://www.nihon-menbow.co.jp/ehhtml/index_en.html)  
 +81-3-3573-1884 +81-3-3752-2136

### 【About Company】

Mentip hospital swab should be used according to the purpose of hospital or clinical examination. Various stocks from 75 mm to 300 mm in length are available. In addition, cotton swab used for in vitro diagnosis virus / bacteria collection has many variations.

At the hospital, surgery such as surgery, otolaryngology, pediatrics, dentistry, gynecology, dermatology,

We manufacture and sell general swabs that are used for a wide range of applications

### 【Main Exhibit】

Various inspection swabs

Cotton swab with test tube for specimen transport

Swab for collecting bacteria

Polyester swab

Disinfection swab

Pediatric swab

Dental swab

Oral care swab

Tip projection shape swab

Sterilized tongue depressor

## Japan Life Sciences Service Ltd

Toukai Bldg. 3F Nishishinjuku 7-22-34, shinjuku-ku, Tokyo 160-0023, Japan  
[www.jlss.co.jp](http://www.jlss.co.jp)  
 81-3-5937-1888

### 【About Company】

1. Life science

Evs technology for life science equipment, reagents and consumables, exosome purification, etc.

2. LDT/IVD

Evs (extracellular vesicles) is the world's most advanced conversion product for research and medical use. Provide hospital services through education and services.

3. Total solution from Evs manufacturing facility

From stem cell culture such as human-derived umbilical cord, to the extraction of EV and freezing of the formulation, all production lines for medical products that meet the standards of the regenerative medicine safety assurance act

### 【Main Exhibit】

1. Automatic Exosome Purification System

2. Micro carrier family

3. Prostate cancer test kit with exosomes

## JEOL Ltd.

3-1-2 Musashino, Akishima, Tokyo, 196-8558 JAPAN  
<https://www.jeol.co.jp/en/>  
03-6262-3571 (Medical Equipment Solution Sales Division)  
FAX : 03-6262-3577 (Medical Equipment Solution Sales Division)

### 【About Company】

In support of our Corporate Philosophy, offering advanced products and services to the users of scientific and metrology instruments, semiconductor equipment, industrial and medical equipment, and contributing to the development of a sustainable, recycling-based society.

### Company Philosophy:

On the basis of Creativity and Research and Development, JEOL positively challenges the world's highest technology, thus forever contributing to the progress in both Science and Human Society through its products.

### 【Main Exhibit】

BioMajesty ZERO JCA-ZS050  
BioMajesty JCA-BM Series  
JCA-BM6010G/6050/9130/BioMajesty6070G/BioMajesty8000GX  
Laboratory Information System JCS-60L CLALIS

## KAINOS Laboratories, Inc.

38-18, Hongo 2-chome, Bunkyo-ku, Tokyo  
<http://www.kainos.co.jp/>  
+81-3-3816-4123 +81-3-3816-6550

### 【About Company】

KAINOS Laboratories, Inc. is a manufacturer/distributor of in vitro diagnostic reagent/instrument such as:

- reagents for clinical chemistry testing
- reagents for immunological testing
- reagents and instruments for Immunohematology testing
- reagents for POCT testing
- reagents for nucleic acid amplification testing, etc.

In addition to responding to the needs of clinical laboratories with various lines of existing products, Kainos aggressively drives the development of innovative new offerings.

### 【Main Exhibit】

Erytra Eflexis-Fully Automated Instrument for Immunohematology testing  
Erytra- Fully Automated Instrument for Immunohematology testing  
DG Gel cards - Gel cards based on the column agglutination technique for Immunohematology testing

## KNF Japan Co.,Ltd.

Across Shinkawa Bldg. Annex 3F, 1-16-14 Shinkawa, Chuo-ku, Tokyo, 104-0033 Japan  
<https://knf.com/ja/jp>  
+81 (0) 3-3551-7931 +81 (0) 3-3551-7932

### 【About Company】

Our headquarter KNF Neuberger GmbH is located in Freiburg Germany established in 1946. We are manufacturing diaphragm pumps for vacuum, compressor and liquid transportation. We have been getting good reputation about pump performance and reliability from a lot of companies worldwide. Our pumps are mainly customized pumps to meet the customer requirements, have been developed with our original system for offering customized pumps without additional tool fee. Our wealth is our know-how and experiences worldwide. And our value is the customization based on them.

### 【Main Exhibit】

- New product: Gentle flow pump : FP7, FP25, FP70, FP150, FP400
- New product : Liquid pump with deviation of flow rate: FL10, FF12, FF20
- New product : Liquid pump against super high pressure head: NF2.35
- Dosing pump for replacing from syringe pump (20  $\mu$ L~80  $\mu$ L / stroke): FMM20, FMM50
- Several Liquid pumps for transferring (0.05~11L/min) Small size, High head pressure, Chemical resistance, DC brushless motor
- Vacuum pump/Compressor (0.3~15L/min, <0.7MPa g): Micro pump NMP/NMS series
- Piston pump(vacuum/compressor) (3.3~78L/min): NPK03, NPK09, NPK25

## Kohjin Bio Co., Ltd

5-1-3 Chiyoda, Sakado-shi, Saitama, 350-0214, Japan  
<https://kohjin-bio.jp/en/>  
+81-49-284-3781 +81-49-284-4784

### 【About Company】

Manufacturing and sales of animal blood, sera, tissue culture media, media for microbiology testing, in vitro diagnostic agents, and cosmetics  
Production and sales of laboratory animal  
Sales of medical equipments  
Trust of animal immunization and the following antibody preparation  
Import and export operations of products and raw materials

## JOKOH Co.,Ltd.

〒213-8588 731-1, Unane, Takatsu-ku, Kawasaki, Kanagawa Pref.  
<https://jokoh.com/>  
81-44-811-9211 81-44-811-9249

### 【About Company】

JOKOH Co.,Ltd. is a worldwide manufacturer of clinical laboratory and histology products. From the time of establishment 74 years ago, our ultimate goal has been one; to contribute to the development of science technology. We would like to continue seeking the best way to achieve the goal with our products, both in market of Japan and overseas.

### 【Main Exhibit】

- ESR Analyzer (Smart Rate series) [Smart Rate 10/20/40]
- Electrolyte Analyzer [Model:EX-D, EX-Ds, IoNEX]
- Ultrasonic Rapid Tissue Processor (Histra series) [Model:Histra-QS, Histra-DC]
- Tumor test kit for HER-2/neu Gene Amplification by FISH method and also by CISH method
- Recording Camera System for Histopathology

## KANTO CHEMICAL CO., INC

East Muromachi Mitsui BLDG, 2-1, Nihonbashi Muromachi 2-chome, Chuo-ku, Tokyo, 103-0022 Japan  
<https://www.kanto.co.jp/>  
+81-3-6214-1091 +81-3-3241-1049

### 【About Company】

Kanto Chemical has been growing as a comprehensive reagents manufactures since the company's establishment in 1944. Reagent, electronic chemicals and performance chemicals, diagnostics reagents and fine chemicals comprise the core business in a global market.

### 【Main Exhibit】

- Reagent For Clinical Analyzer
  - Biochemical test reagents (Cica Liquid® Series, Cica Fit® Series)
  - Immunological test reagents (Cias® Series)
- Products related to AMR
  - Detection Disks / Chromogenic Media (Chromagar™ Series)
  - Genetic Test kit (Cica Geneus® PCR Kit Series)
- Products related to QC at Bacteria testing
  - Reference strains (From Microbiologics®)
- Instruments for Experimentation and Research
  - Liquid Handling Device (From BRAND®)

## Kobayashi Create Co., Ltd.

115 Kitatakane, Ogakie-cho, Kariya-shi, Aichi-ken 448-8656 Japan  
<https://k-cr.jp/>  
+81-566-26-5251 +81-566-26-5255

### 【About Company】

Since the era of the former company name Kobayashi Recording Paper Co., Ltd., mainly printed matter such as electroencephalogram / electrocardiogram paper and examination request forms have been used.

In addition, when introducing the system of the inspection department, we will introduce system-related products such as barcode printers and labels.

We have provided it.

As the environment surrounding hospitals and inspection departments changes day by day, we have equipment and systems that match each site. We will develop complex operational solutions and contribute to the realization of safety and safety in medical treatment.

### 【Main Exhibit】

- 【Test tube preparation system】
  - Blood Collecting Tube Labeler (8 tube type) i・pres with
  - Blood Collecting Tube Labeler (4 tube type) i・pres fit

## KUBOTA CORPORATION

3-29-9 Hongou, Bunkyo-ku, Tokyo 113-0033, Japan  
<https://www.centrifuge.jp/>  
+81-3-3815-1331

### 【About Company】

Since 1920.  
Kubota is just leading new centrifuge era through its technique.

### 【Main Exhibit】

Centrifuge, F-gas Free Centrifuge

## KYOKUTO PHARMACEUTICAL INDUSTRIAL CO., LTD

7-8, Nihonbashi Kobuna-cho, Chuo-ku, Tokyo, 103-0024, JAPAN  
<https://www.kyokutoseiyaku.co.jp/english/home/>  
 +81-3-5645-5664

### 【About Company】

Kyokuto Pharmaceutical Industrial Co., Ltd. develops clinical diagnosis technologies that focus on clinical microbiology, clinical chemistry, and immunodiagnosics. We have also developed technology for cell culture media that is suitable for cell growth and production in industrial use. By making full use of our excellent product quality and technological offerings, we continue to create novel products that help improve human health and quality of life.

### 【Main Exhibit】

Brothmic SGM (non-tuberculous Mycobacterium tuberculosis drug susceptibility test kit)  
 Ribotest Legionella (immunochromatographic kit detects Legionella pneumophila antigens)  
 Q-Line kyokuto PBP2' (staphylococcal kit)  
 Treponema antibody assay kit  
 Prepared media

## Kyowa Mediceed Co.,Ltd.

10-6 Kurosakicho Kita-Ku Osaka 530-0023 Japan  
<http://www.kyowa-mediceed.co.jp/>

HbA1c  
 POCT

## LION POWER Co.,Ltd.

Tsu 5, Tsukizu, Komatsu, Ishikawa, JAPAN  
[https://www.lionpower.co.jp/company/index\\_e.html](https://www.lionpower.co.jp/company/index_e.html)  
 +81-761-44-5411 +81-761-44-8080

### 【About Company】

We are already manufacturing and selling blood collection tube transfer equipment and desktop centrifugal smear equipment. The blood collection tube transfer device has been used at the National University of the Ryukyus Hospital, has been operating stably for a long period of time, and has received high praise from clinical laboratories. Desktop centrifugal smear equipment is steadily increasing sales in Japan, including famous hospitals nationwide such as the University of Tokyo Hospital, Institute of Medical Science, and Osaka University Hospital. It is characterized by being devised to prevent infection. Microscopic examination of blood is a highly reliable examination method, and there is a strong need for this product that can stably (evenly) prepare blood smears. The automatic staining device is also highly evaluated in the medical field, such as stable staining in blood staining.

### 【Main Exhibit】

Blood Cell Smear "Spinner LT1000"  
 Automatic Cell Stainer "Mini Stain LU1000"  
 Automatic inversion mixing device for blood collection tubes

## MALCOM CO.,LTD.

15-10, HONMACHI 4-CHOME, SHIBUYA-KU, TOKYO, 151-0071, JAPAN  
<https://www.malcom.co.jp/en>  
 +81-3-3320-5611 +81-3-3320-5615

### 【About Company】

Development, manufacturing, and sales of instruments incorporated with electronic sensors and image processing systems, Medical products and DNA related systems, and LED manufacturing related systems.

### 【Main Exhibit】

Fully automated PCR testing equipment, Immunofluorescence analyzer, HbA1c measuring device, COVID-19 antigen test kit, Various immunoassay test kits, Various PCR test kits, and others

## KYORIN Pharmaceutical Co.,Ltd.

1-3-7, Otemachi, Chiyoda-ku, Tokyo 100-0004, Japan  
<https://www.kyorin-pharm.co.jp/en/>  
 +03-6374-9725 +03-6374-9693

### 【About Company】

Since its founding in 1923, each and every employee of KYORIN Pharmaceutical has added unstinting effort to high ideals to bring about the creation, development, production and provision of new drugs sought by the medical frontlines to realize the corporate philosophy shared throughout the Kyorin Group of "Kyorin continues to fulfill its mission of cherishing life and benefiting society by contributing to better health" to bring smiles to the faces of patients and their families. Our company has adopted the slogan of being "a pharmaceutical manufacturer that is trusted by patients and medical professionals, and is recognized for its presence in society." By establishing a strong presence in specific areas (respiratory, otolaryngology, and urology), we aim to create globally innovative new drugs that have benefits for human health worldwide.

### 【Main Exhibit】

Gene Analysis Instrument GeneSoC® mini, Microfluidic Real-Time PCR System GeneSoC®, GeneSoC® SARS-CoV-2 N2 Detection Kit

## Leica Microsystems K.K.

1-29-9, Takadanobaba, Shinjuku-ku, Tokyo 169-0075, Japan  
<https://www.leicabiosystems.com/>  
 +81-3-6758-5690

### 【About Company】

Leica Biosystems is a cancer diagnostics company and a global leader in workflow solutions. Only Leica Biosystems offers the most comprehensive portfolio that spans the entire workflow from biopsy to diagnosis.

With unique expertise, we are dedicated to driving innovations that connect people across radiology, pathology, surgery and oncology.

Our experts are committed to delivering Improved Quality, Integrated Solutions, and Optimized Efficiencies leading to breakthrough advances in diagnostic confidence.

Our mission of "Advancing Cancer Diagnostics, Improving Lives" is at the heart of our corporate culture. Leica Biosystems is headquartered in Germany and operates in over 100 countries.

## M&S Instruments Inc.

12-4 Mikuni Honmachi 2-chome, Yodogawa-ku, Osaka 532-0005, JAPAN  
<https://www.technosaurus.co.jp/company-en>  
 81-6-6396-0504

### 【About Company】

As the exclusive distributor for Gilson SAS, M&S Instruments Inc. performs import, sales and service of Pipetman.

In addition to guaranteeing the quality of Pipetman, we have established our facility and organization to provide after-sales services that meet strict standards.

M&S Liquid Handling Service department (Osaka) acquired a qualification in November 2007 for Pipette calibration organization that conforms to JIS Q 17025:2005 (ISO/IEC 17025:2005) as the first institute in the Pipette industry in Japan. Our strict quality control system has enabled us to achieve a calibration method that ensures traceability in accordance with ISO 8655-6 and provide highly reliable validation results. We also support our customers who need calibration required by GLP/GMP/ISO 9001.

### 【Main Exhibit】

Pipettes, Andrew+

## MC HEALTHCARE CHINA CO., LTD.

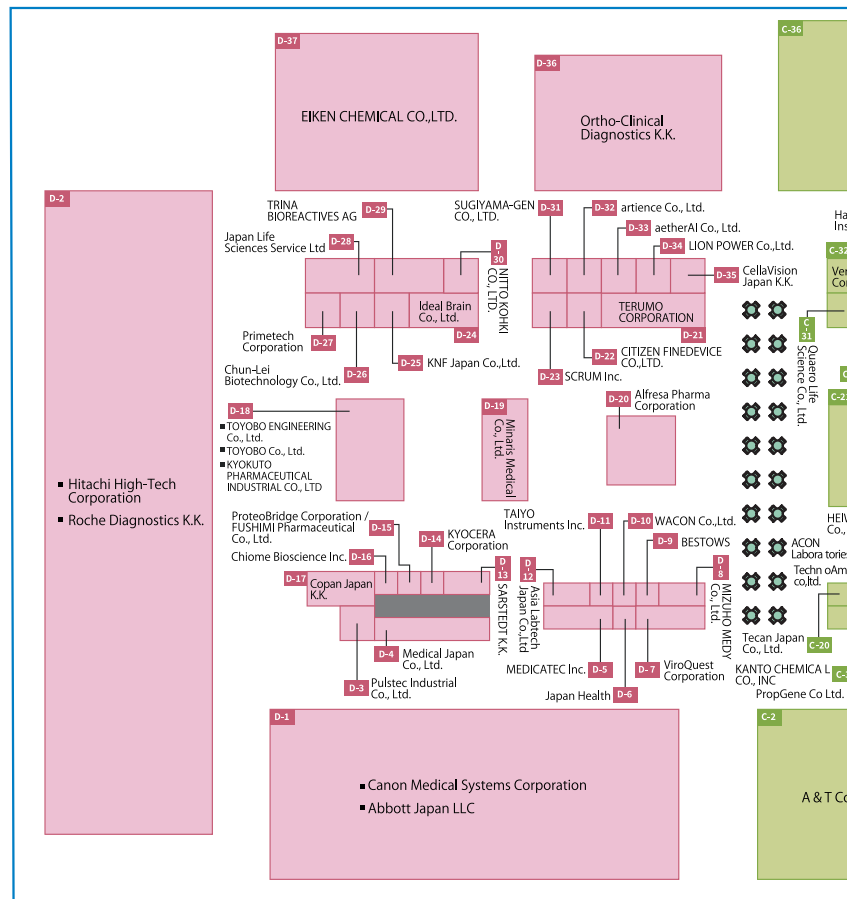

12th Floor, Shinagawa East-One Tower, 2-1-16, Konan, Minato-ku, Tokyo n.a.  
 +81-3-6852-0010

### 【About Company】

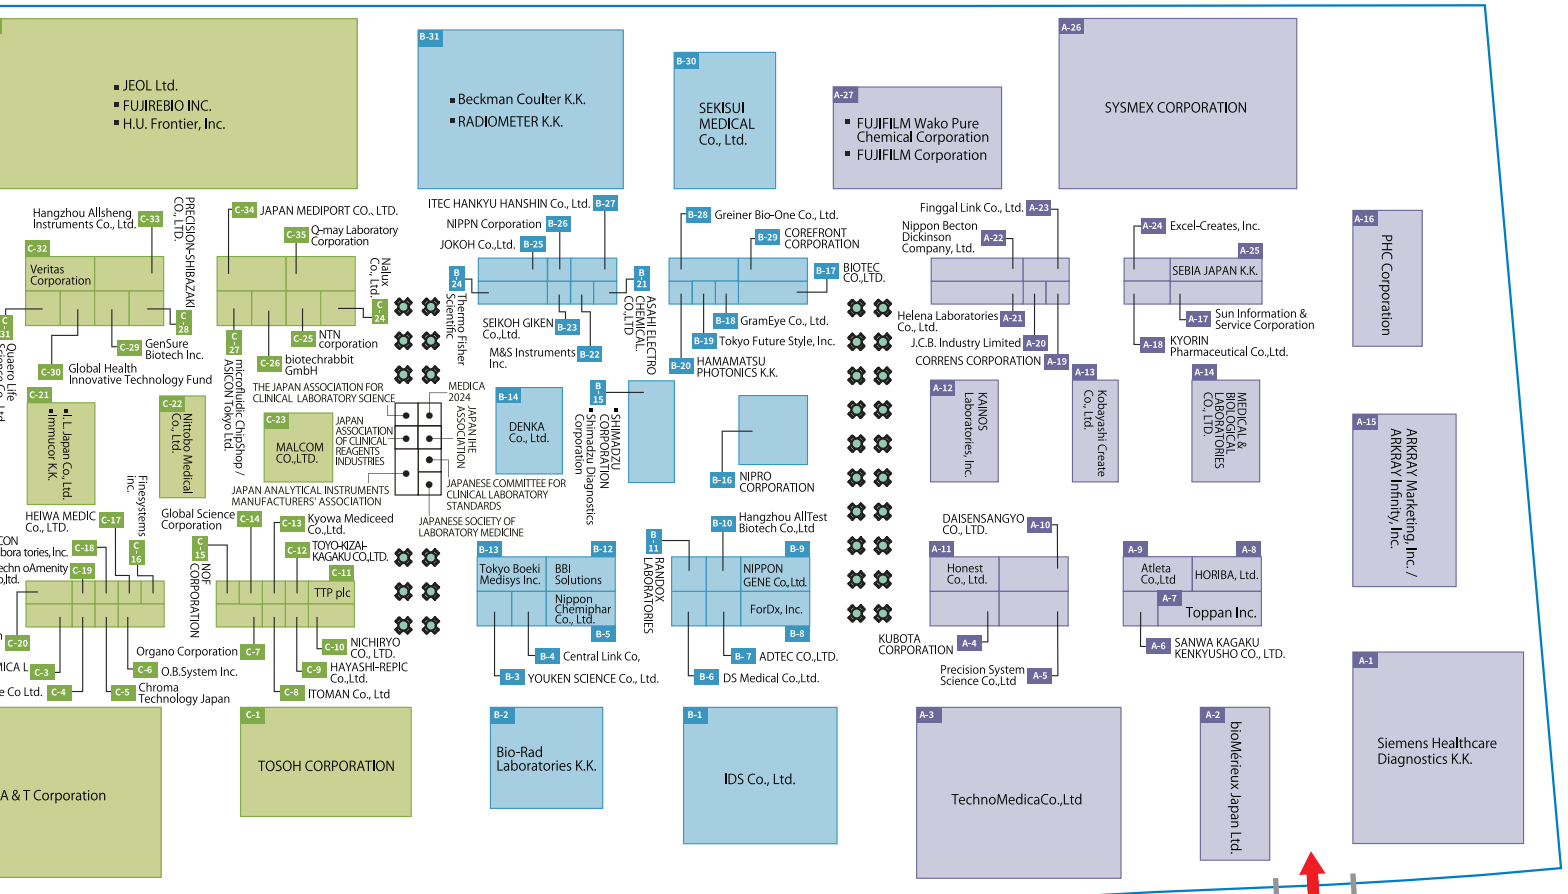

Import and sale of medical equipment, materials and raw materials in the Chinese market. 1. Import and sale of IVD raw materials. 2. Import and sale of disinfection and sterilization products.

### 【About Company】

We are determined to contribute to human health and medical advancement through our ongoing development of innovative diagnostic technologies.

### Products & Services

#### 1. Clinical Diagnostics

We supply high-quality clinical diagnostics.

We are also working vigorously to develop clinical diagnostics for rare and intractable diseases that are difficult to diagnose, to ensure that patients with these diseases are diagnosed promptly and so can start treatment as soon as possible.

#### 2. Drug Discovery Support

In our efforts to promote the spread of personalized medical care, we are developing biomarkers and companion diagnostics (CDx) that provide information for therapeutic approaches or decisions on medication.

#### 3. Research Reagents

We provide support for basic research through our antibodies and various kits focus on drug discovery for cancer immunology and regenerative medicine.

### 【About Company】

It was in 1975 that the enzymatic assay was introduced as an innovative technique into the world of laboratory testing that supports people's health.

In comparison to a chemical assay as the major technique in those days, the enzymatic assay fundamentally improved the efficiency and precision of testing, having a substantial impact on the industry of laboratory testing.

Since then, enzymatic assays have been applied to a broad range of fields, including clinical biochemistry and immunology, thereby contributing to improvement in healthcare services.

In 1981, our company spun off from the former Kyowa Hakko Kogyo Co., Ltd., which devised this innovative technique. Since 2021, we have pursued further leaps and development as an independent company by the name of Minaris Medical.

## Nalux Co., Ltd.

Yamazaki 2-1-7, Shimamoto-cho, Mishima-gun, Osaka 618-0001 Japan  
<https://www.nalux.co.jp/en/>  
+81-75-963-3456 +81-75-963-3450

### 【About Company】

Nalux is a leading provider of high-precision optics solutions, offering comprehensive services from optical design to mass production and product warranty.

With decades of experience and cutting-edge expertise, we can advise the best solution for you. Leveraging a wide range of manufacturing technologies, including plastic injection molding, glass molding, and ultra-precision machining and lithography, we deliver optics of exceptional quality and precision. Contact us today to discuss your specific requirements and discover how our cutting-edge technologies can solve your optical system or parts processing requirement.

### 【Main Exhibit】

Micro fluidic chip:

Handle everything from cutting prototypes to mass production by molding.

Ultra-miniature camera unit:

A lens unit with a diameter of 1.2 mm for ultra-compact camera or endoscopy. This enables cameras to be installed in spaces where it has some size restrictions.

Plasma mist generator:

Generates active species using only air, water, and electricity. Enable to sterilize the space.

SCOI (Spectral Characteristic Optimization Imaging):

Optimization of the illumination spectrum improves the visibility of the observed object.

Superhydrophobic/hydrophilic/oil-repellent treatments treatment:

Combination of surface microstructure and coating realizes superhydrophobicity with a contact angle of 166°.

### 【About Company】

BD is a global medical technology company that is advancing the world of health by improving medical discovery, diagnostics and the delivery of care. BD leads in patient and healthcare worker safety and the technologies that enable medical research and clinical laboratories. The company provides innovative solutions that help advance medical research and genomics, enhance the diagnosis of infectious disease and cancer, improve medication management, promote infection prevention, and equip surgical and interventional procedures.

In 1897, Maxwell Becton and Fairleigh Dickinson founded Becton, Dickinson and Company with a vision to improve outcomes for patients. With more than a century of experience and our global reach, BD leads in patient and healthcare worker safety and the technologies that enable medical research and clinical laboratories.

### 【About Company】

Nippon Gene has established in 1982 as the biotechnology venture company in Japan. We have obtained ISO13485 approval and governmental registration of manufacturing not only human IVD but also animal IVD. We also provide contract manufacturing services from antibody development to Point of Care Test (POCT) devices. In addition, since our establishment, we have developed and manufactured various research tools, enzymes, nucleic acid extraction kits, DNA/RNA amplification kits, Buffers under ISO9001, for instance. We have been developing and manufacturing the products customer needed based on experiences as a reagent manufacturer. Nippon Gene commits to contribute to health of human, animals, plants, and earth (environment) by producing useful products with confidence and reliability.

### 【Main Exhibit】

- POCT (Lateral flow device, Flow through device)
- ELISA
- SARS-CoV-2 nucleic Acid detection kit (Whole In One SARS-CoV-2 direct detection kit)
- CMS (POCT, Nucleic acid hybridization chromatography, Test paper, ELISA, etc.)
- Key parts CMS (Antibodies, IVD grade oligos, Enzymes for research, Nucleic Acid purification, etc.)

## Proteobridge Corporation

Level 9, Ariake Frontier Building Tower B 3-7-26 Ariake Koto-ku, Tokyo  
<https://proteobridge.co.jp/>  
+81-3-6457-1600

### 【About Company】

Proteobridge Inc. offers the HuPEX® Comprehensive Protein Array Contract Analysis Service. Our HuPEX® Comprehensive Protein Array utilizes proprietary technology to achieve non-dry preservation of antigen proteins. This compact platform, the size of a palm, contains 13,500 spots of antigen proteins, covering 86% of human proteins. Since its launch in September 2023, we have accumulated over 800 contracts from 30 research institutions nationwide, demonstrating its valuable application in various medical and drug discovery research fields. Notably, this technology has led to the discovery of self-antibodies as potential biomarkers for disease diagnosis and treatment, resulting in four patent applications.

Additionally, we have developed a derivative product, the A-Cube® (Systemic Sclerosis/Polymyositis-Related Autoantibody Detection Kit). This advanced research tool simultaneously analyzes up to 67 antigens and has received over 2,500 contracts from 250 medical institutions across the country for the study of rare diseases.

## Pulstec Industrial Co., Ltd.

7000-35, Nakagawa, Hosoe-cho, Hamana-ku, Hamamatsu-City, Shizuoka Pref. 431-1304, Japan  
<https://www.pulstec.co.jp/en/>  
 +81-53-522-3611

### 【About Company】

Pulstec Industrial acquired the "Approvals for Manufacturing Medical Devices" in June of 2014, and ISO13485 certification in July of 2015. Pulstec has been developed our operational system, which is designing, pre-production, manufacturing, and maintenance for medical equipment. We are also working on compliance with overseas standards such as FDA.

In the exhibition, Pulstec will introduce our these activities. Also we will exhibit fluorescence detection unit (concept model) and fluorescence/light absorbing detection unit (concept model) which is applied our core technology, optical sensing technology.

### 【Main Exhibit】

• Fluorescence detection unit (concept model)  
 This unit is required for PCR or Laboratory test.  
 Fluorescence detection unit is integrated which is applied high sensitive PMT technology.  
 • Small fluorescence/light absorbing detection unit (concept model) This unit is versatile fluorescence/light absorbing detection unit, incorporating to apply for stimulated multiple and polyspecimen which is required for research of genetics and immunology. The unit is equipped with high sensitive fluorescence detection unit and temperature control stage according to test reagent. Compact, light weight and fast detection are realized. also speedy sample evaluation is possible

## Quaero Life Science Co., Ltd.

55 DIAMOND ROAD, ANTRIM, NORTHERN IRELAND, BT29 4QY, UNITED KINGDOM  
[www.randox.com](http://www.randox.com)  
 +44 2894422413

### 【About Company】

Randox Laboratories is a global market leader within the in vitro diagnostics industry. Founded in 1982 and headquartered in the United Kingdom, Randox offers a comprehensive portfolio of high quality laboratory products across: instruments, reagents and quality control. Our products serve hospitals, clinical and research labs, molecular labs, food testing, forensic toxicology, veterinary labs, and life sciences.

### 【Main Exhibit】

Our key product range includes; quality control and reagents for clinical and molecular laboratories.

Acusera true third-party quality controls, and RIQAS EQA offer complete test menu consolidation for laboratory Quality Control, ideal for chemistry and immunoassay testing as well as speciality testing.

QCMD and Qnostics represent our molecular range, offering a world leading External Quality Assessment (EQA) and Internal Quality Control solutions for molecular infectious disease testing.

Randox offer over 100 diagnostic reagents suitable for open channel, which are internationally recognised as being of the highest quality, with applications available for a wide range of instruments.

## SARSTEDT K.K.

Uchikanda Shibuya Bldg., 8F 2-16-11, Uchikanda, Chiyoda-ku, Tokyo 101-0047 Japan  
<https://www.sarstedt.com/en/home/>  
+81-3-5215-5400 +81-3-5215-6400

### 【About Company】

Sarstedt, one of the world's leading providers of laboratory and medical equipment, develops, manufactures and sells equipment and consumables in the field of medicine and science. Founded in 1961, the company has continued to grow to the point where it now employs a workforce of 2,600. The Sarstedt Group comprises 34 sales organisations and 15 production sites in Europe, North and South America and Australia. The company's headquarters are in North Rhine-Westphalia, Nümbrecht, Germany.

<https://www.seikoh-giken.co.jp/en/>  
+81-47-386-3111

### 【About Company】

Since its founding in 1972, SEIKOH GIKEN has continued to develop products with a focus on "compactness," "precision," and "optics," centered on precision processing technology, which is its core technology. In particular, our mold and injection molding technology, based on our experience in microfabrication, fine transfer, and thin-walled molding, is a special technology that enables us to handle micro/nanometer-order fine transfer and thin-walled molded products. Technology. Using this technology, we are shipping three-dimensional culture vessels, dishes, microfluidic chips, microarray chips, and other medical analysis and inspection plates both domestically and internationally. We handle mold design and production in our own factory, injection molding in a clean room, and post-processing work. We have branches in the US, Europe and China we are able to respond worldwide.

### 【About Company】

SCHOTT MINIFAB partners with diagnostics & life science research companies to design, develop and manufacture IVD consumables from concept to commercialization - quickly and efficiently. We offer an integrated and multidisciplinary approach to the design, development and manufacture of diagnostics and life science-research consumables. Driven by our pioneering spirit and passion - and building on more than 130 years of expertise in solving complex challenges - we help clients all over the world accelerate scientific discoveries and improve patient care. We support our customers in every phase of the product life cycle for POC, at home and complex IVD consumables by integrating our extensive experience and know-how with our engineering and process expertise to support early-stage design, design development and large-scale manufacturing.

+81-3-6722-6435 +81-3-6722-6438

### 【About Company】

Sebia has been a global leader in multiple myeloma testing for over 50 years and is your laboratory partner with unique technology and extensive experience. Through superior technology and high quality products, we contribute to the early detection, diagnosis, and treatment of disease, from screening to diagnosis and monitoring of myeloma and AL amyloidosis. Sebia's capillary electrophoresis provides laboratories and clinicians with highly sensitive, high-resolution results from advanced technology. Easy operation and automated maintenance features improve the operational efficiency of clinical laboratories. Sebia agarose gel electrophoresis ensures sharp, clear patterns and sensitive immunofixation with a unique sample application system. High sensitivity and high resolution results provide reliable test results and are appreciated by users around the world.

<https://www.sekisui-medical.jp/>  
81-3-3272-0671 81-3-3272-0907

### 【About Company】

We conduct manufacturing and sales for a wide range of analytical equipment including fully-automated blood coagulation analyzers, plastic blood collection tubes which are essential for clinical analysis, and clinical diagnostic reagents with a focus on blood coagulation, lifestyle diseases, and infectious diseases. The Diagnostics Business Group serves as the core business of our company. We mainly develop, manufacture and market in vitro diagnostics for hospital laboratories and clinical test centers. As a pioneer of biochemical testing, we have always played a leading role with regard to in vitro diagnostics for the biochemical sector. In particular, the originality of the core technologies we apply in the lipids field keeps us way ahead of our competitors. The reagents we have developed to directly measure HDL-C and LDL-C hold a large amount of shares both in Japan and overseas.

### 【Main Exhibit】

### 【About Company】

Having entered the business of manufacturing and selling SS agar in 1952, Shimadzu Diagnostics is now a leading company in clinical diagnostic agents for microbiological testing. We develop products that respond scrupulously and are faithful to the needs of testing sites.

### 【Main Exhibit】

Rapid Analyzer for Identification and Susceptibility Test RUISUS S4

## SHINO-TEST CORPORATION

3-7-9 Kanda-Surugadai, Chiyoda-ku, Tokyo 101-8410, JAPAN  
<https://www.shino-test.co.jp/en/>  
 +81-03-5280-3711

### 【About Company】

Shino-Test was established in 1951 as the world's first company to manufacture and commercially distribute clinical diagnostic kits.

Our company has since responded to the numerous needs arising from medical settings. We have gained the trust of the medical community by strictly adhering to QMS (Quality Management System) - the core basis of manufacturing medical supplies. By conducting rigorous quality control, we have established ourselves as one of the leading companies in the field of biochemical laboratory testing. In addition, we are expanding our business to immunology and genetic testing. At Shino-Test, we will continue to manufacture clinical reagents to enable early diagnosis and aid therapy. We sincerely hope to contribute to society through clinical testing.

## Siemens Healthcare Diagnostics K.K.

1-11-1 Ohsaki, Shinagawa-ku, Tokyo 141-8673 Japan  
<https://www.siemens-healthineers.com/jp>  
 +81-3-3493-7500

### 【About Company】

When our health is at risk, we rely on physicians to make the best possible decisions - from quick, early diagnoses to the most effective treatments and follow-ups. By constantly bringing breakthrough innovations to market, we help healthcare professionals to deliver high-quality care, leading to the best possible outcome for patients.

Our portfolio of is at the center of clinical decision-making and treatment pathways. Patient-centered innovation has been and always will be at the core of our company. We aspire to create better outcomes and experiences for patients no matter where they live or what they are facing.

We pioneer breakthroughs in healthcare. For everyone. Everywhere. Sustainably.

This is why we give our best every day, to improve the lives of patients and their families.

## Tecan Japan Co., Ltd.

Kawasaki Tech Center, 580-16 Horikawa-cho, Saiwai-ku, Kawasaki, Kanagawa 212-0013, Japan  
<http://www.tecan.co.jp>  
+81-44-556-7311 +81-44-556-7312

### 【About Company】

Tecan was founded in Switzerland in 1980 that manufactures and develops life science research support equipment. In Japan, we celebrated our 30th anniversary in 2022.

Tecan Japan is developing two businesses. The Life Science Business delivers Tecan brand products such as liquid handling workstation and microplate readers to end users, and the Partnering Business (PB) delivers components and equipment used/sold by partner companies as OEM products.

The PB team exhibiting at JACLaS has world-class technology in the liquid handling field and has a track record of developing and manufacturing numerous in vitro diagnostic reagent analyzers that comply with legal regulations. Our OEM components have been installed in many equipment of the world's top IVD companies. If you are interested in Tecan, please feel free to contact us.

### 【Main Exhibit】

This time, we are going to show a highly durable and accurate piston pump, which has been increasing its track record in Japan, and a new product, an OEM robot arm that can immediately adjust the dispensing conditions in response to the environment as well as our syringe pumps etc. We will prepare to show the liquid dispensing under the conditions according to the request from visitors at the booth on the spot. We also accept consultations on OEM parts and analyzer contract design that can be followed up to product life cycle management.

Parts: OEM piston / syringe pump, pipette module, liquid passage switching valve, etc.

OEM contract: Contract design and manufacturing of in-vitro diagnostic instrument and scientific automatic analyzers

### 【About Company】

ELGA LabWater is the world's second-largest manufacturer of pure water and ultrapure water equipment for laboratories. The Veolia Group develops environmental businesses such as water supply business and water treatment business for business establishments around the world. Among them, ELGA LabWater, headquartered in the United Kingdom, mainly manufactures and sells pure water equipment for laboratories. We are developing PURELAB brand products for laboratories and MEDICA brand products for clinical laboratories. As a manufacturer of pure water equipment for laboratories, we were the first to introduce EDI technology and UV technology, and always provide the latest water treatment technology.

## ViroQuest Corporation

No. 2-5, Awaji-machi 2-Chome, Chuo-ku, Osaka 541-0047 Japan

### 【About Company】

Since the establishment of a business, I offer various disposable products made by plastic skillful with a physics and chemistry plane. Molding plant at the company's group has been consistently up to a molding from the mold making products that incorporate the opinions of the customer, to provide high quality products to satisfy our customers is possible. Because I produce it automatically in the molding environment for exclusive use of the physics and chemistry apparatus, and the molding factory molds it under the thorough quality control system, the management such as the traceability does not have any problem and can supply the highly precise product which is most suitable for the production such as expendable supplies for automatic share note devices.

### 【Main Exhibit】

Disposable chip (For Automatic Pipettor)  
Plastic test tube  
Sample cup  
Urethrate spitz  
Microplate  
Embedding cassette For pathology

## TTP plc

The TTP Campus, Cambridge Road, Cambridge, SG8 6HQ, UK  
<https://www.ttp.com/industries/life-science/diagnostics/>  
44-1763262626

### 【About Company】

At TTP we bring together world-leading scientists and engineers to deliver cutting-edge diagnostics solutions today and we have done so for over three decades. We have a proven track record of working at the forefront of technology, inventing disruptive diagnostic systems every day. We integrate complex processes into easy-to-use and low-cost disposables. We offer clients complementary technologies that ensure they can deliver. We are unrivalled in speed of development, confidence of functionality and of regulatory manufacturability and we can deliver at scale. We make sure diagnostics solutions of the future are delivered today.

### 【Main Exhibit】

We have helped some of the world's most ambitious diagnostics companies develop and take their products to market. Working with us, you will benefit from deep understanding of basic biology, detection science, engineering, design for manufacture, and scale up. We can develop your product independently or work as an extension of your development team, seamlessly integrating the skills and resources you need.

## Veritas Corporation

Sumitomo Hamamatsucho Bldg., 6th Floor, 1-18-16 Hamamatsucho, Minato-ku, Tokyo 105-0013 Japan

### 【About Company】

Veritas Corporation, founded in 1972, is a Japanese distributor of products in the in vitro diagnostics, life sciences research and raw material reagent markets.

### 【Main Exhibit】

- Antibody & Antigen
- Specimens (Healthy donors, Patient Samples)
- Animal Serum Products, BSA
- Human Serum Products
- Custom IVD Antibody Production Service

## WACON Co.,Ltd.

361 Nakaisaka, Kinokawa-shi, Wakayama-ken 649-6425 Japan  
<https://www.wa-con.co.jp/>  
+81-736-77-2203

### 【About Company】

Founded in 1951 and headquartered in Wakayama Prefecture, this logistics and packaging equipment manufacturer started out with a cardboard business. Currently, the company develops, manufactures, and sells logistics equipment such as transport containers and refrigerated boxes made of various materials, including cardboard. The PACKPRO business provides packing services exclusively for air cargo, with packing centers in Narita and Kansai, and GDP-certified temperature-controlled warehouses at -20° C, 5° C, and 20° C, providing the fastest export packaging service in Japan. As the temperature-controlled warehouses are bonded storage areas, packaging work and export declarations can be carried out inside the warehouses, contributing to the transportation of cargo that is sensitive to temperature changes, such as pharmaceuticals.

### 【Main Exhibit】

Introducing our next-generation pharmaceutical transport platform. Using validated pharmaceutical rental transport boxes, we can maintain temperatures of 5 degrees, 20 degrees, and -20 degrees for more than 72 hours during normal temperature transport. We also own GDP-certified warehouses at Narita and Kansai airports, and provide export packaging services and bonded storage services specialized for air cargo.
